I am unable to attend the next LTAB meeting. I hereby submit a comment--to members of the LTAB--on the action item concerning selecting someone to represent the LTAB in connection with the update of the County's Comprehensive Master Plan and Development Code (Title 30).

I believe that any LTAB recommendations or approvals of potential changes to the Master Plan or Development Code should be voted on by the LTAB in a public meeting after the public has received an agenda with a detailed explanation of any such changes. If a citizen has any comments or questions about changes to the Master Plan or Code, they would have the opportunity to attend the meeting or send comments.

Thank you for your time.

(Mrs.) Patricia S. Fisher
