**DESERT CONSERVATION PROGRAM PROJECT COMPLETION SUMMARY:
CONNECTIVITY MANAGEMENT PLAN
2015-RECON-1580G**

The work for the above reference project has been completed. Below is a summary of project related information.

The purpose of the above referenced project was:

The purpose of this project was to look at the current state of connectivity of tortoise populations throughout Clark County, investigate the threats and barriers to maintaining connectivity, and identify potential solutions that will help conserve and/or restore connectivity of tortoise populations. This project looks to synthesize the data collected and combine it with data from previous projects to develop a strategy to help maintain and/or enhance connectivity of tortoise populations across Clark County, NV.

The major accomplishments or findings of this project include:

A connectivity Management Plan was prepared using extensive research from data collected throughout this and previous projects supervised by the Desert Conservation Program.
