## **District Attorney Family Support Division Open Extended Hours to Help Families with Child Support Cases**

The Office of the District Attorney, Family Support Division, will be open outside of normal business hours this **Saturday August 8, from 8am – 4pm**. The goal is to offer additional hours of operation to assist custodial parents, and non-custodial, parents with their child support cases.

"Offering Saturday hours allows parents an additional opportunity to come in and personally meet with a case manager and provide additional information on their case," said District Attorney Steve Wolfson. "Additionally, we encourage non-custodial parents who wish to come in and make a payment to do so--during normal business hours, or on this extra day of operation."

This is also a good time for people with new Family Support cases with our office to come in and get a status update on their case, and learn about other services we offer Family Support customers, such as; Ask-a-Lawyer, Visitation/Access Mediation and social work assistance.
