## TIPS FOR MAIL BALLOT VOTING

**Only Use the Election Department's Mail Ballot Return Envelope (See Example Image Above):** If you lose or spoil <u>your</u> Election Department mail ballot return envelope with your pre-printed name and address (included in your mail ballot packet) and you want to vote by mail, IMMEDIATELY call (702) 455-VOTE (8683) for replacement envelope information.

**Sign the Outside of <u>Your</u> Return Envelope (See Example Image Above):** Whether you decide to mail or drop off your voted ballot, you must sign the outside of <u>your</u> Election Department mail ballot return envelope in the space provided. If you fail to do this, your ballot may not be counted. **IMPORTANT: Your signature will be checked against what is in the voter registration records.** 

**Only Place Your Own Ballot in <u>Your</u> Own Return Envelope:** Do not put anyone else's ballot in <u>your</u> Election Department mail ballot return envelope. If more ballots than your own are inside the envelope when it is returned, then none of the ballots will be counted.

**Clearly Mark Your Ballot Per the Instructions:** Read and follow the voting instructions in your mail ballot packet to clearly mark your choices and ensure your ballot is counted.

- Avoid stray marks and tearing the ballot.
- Do not put the "I Voted" sticker on your ballot.
- Do not sign the ballot itself.

**Secrecy Sleeve:** A secrecy sleeve is included in your packet so that you may place your voted mail ballot inside of it before putting it inside <u>your</u> Election Department mail ballot return envelope. However, the secrecy sleeve is not required. Your voted mail ballot will not be rejected simply because you did not include the secrecy sleeve.
