

PUBLIC STATEMENT:
COMMUNITY CANOPY PROJECT

MONDAY, 30 SEPTEMBER 2024

Wow! That was Fast!

Due to an enthusiastic response to our Community Canopy Project, all 2,200 trees have been claimed **within 72 hours of launch**. We appreciate the public interest and thank our partners at the Arbor Day Foundation for facilitating all your requests for trees. Thousands of Southern Nevada residents stepped up to go All-In Clark County with us and plant trees to mitigate extreme heat and help us combat the urban heat island effect.

Due to the success of the Community Canopy's Project fall campaign, we will be rolling out a second round of trees in Spring. Stayed Tuned!

Thanks again for going **All-In** with us!
