For DAQ Use Only

Prior Notification Form

This form may be used to make changes at a minor source ONLY if the changes do not meet the requirements for a significant permit revision (AQR 12.1.6(a)), a minor permit revision (AQR 12.1.6(b)), or an administrative permit revision (AQR 12.1.6(c)). This form may not be used for a change in the location of a portable source. To notify DAQ of the relocation of a portable source, please submit SS-PER-016-01, Portable Source Permit Move Notice.

Please see instructions on page 2 before filling out the form.

IDENTIFICATION	
1. Source Name:	2. Source ID No.:
<p>3. The following changes at a minor source may be made without a permit revision if the source provides prior written notice of the change within the applicable time frame for the change listed below, on a form specified by the Control Officer, unless the Control Officer objects within the applicable time frame (AQR 12.1.6(d)).</p> <p style="text-align: center;">Check ALL conditions below that apply to the proposed changes.</p> <p><input type="checkbox"/> Replacing an item of air pollution control equipment listed in the permit with one that is not identical, but is substantially similar and has the same or better pollutant removal efficiency: 30 days after the date of receipt of the written notice by the Control Officer. The Control Officer may require a verification of the efficiency of the new equipment by performance tests.</p> <p><input type="checkbox"/> A physical change, or a change in the method of operation, that does not increase the source's potential to emit: 7 days after the date of receipt of the written notice by the Control Officer (includes like-kind replacement of an emission unit).</p> <p><input type="checkbox"/> A change that would trigger an applicable requirement that already exists in the permit: 30 days after the date of receipt of the written notice by the Control Officer, unless otherwise required by the applicable requirement.</p> <p><input type="checkbox"/> A change that amounts to reconstruction of the source or an individual emission unit, unless the reconstruction triggers a new applicable requirement: 7 days after the date of receipt of the written notice by the Control Officer. Reconstruction of a source or an emission unit shall be presumed if the fixed capital cost of the new component(s) exceeds 50 percent of the fixed capital cost of a comparable entirely new source or emission unit.</p> <p><input type="checkbox"/> Removal of one or more emission unit(s) or activity that is part of an existing minor source permit. This change will not affect the source's potential to emit until it is incorporated into the permit through a permit renewal, permit revision, or the Control Officer action identified in Section 12.1.6(f).</p> <p><input type="checkbox"/> Replacing an item of air pollution control equipment listed in the permit with an identical (i.e., same model, different serial number) item. The Control Officer may require verification of the efficiency of the new equipment by performance tests.</p>	
4. Describe the proposed change(s) in detail in the space below. Add pages as needed.	

Attach manufacturer's specification sheet(s) supporting the information above, as applicable.

Truth and Accuracy Certification

As the Responsible Official, based upon information and belief formed after reasonable inquiry, I certify that the statements and information in this application are true, accurate, and complete. My signature acknowledges that I am liable under the Nevada Revised Statutes that forbid false or misleading statements.
