

# Chapter 6

## List of Preparers

### Document Preparation Team

#### RECON

This MSHCP/EIS was prepared by RECON (RECON Environmental, Inc.) of San Diego, California. The following persons participated in its preparation.

#### **Paul Fromer, Principal Conservation Biologist**

M.S. Biology, Certified Ecologist, Ecological Society of America with 22 years of experience; he has directed the preparation of nine habitat conservation plans for federally endangered species, including the Desert Conservation Plan for desert tortoise in Clark County. Primary responsibilities included overall project design, management, coordination, and preparation of the MSHCP.

#### **Scott Fulmer, Senior Project Manager**

B.A. Anthropology, Society of Professional Archeologists, with 21 years of experience in environmental impact assessment and report preparation. Primary responsibilities included impact analysis and EIS preparation.

#### **Leslie B. Smith, GIS Specialist**

M.A. Geography, with 5 years' experience creating, managing, and documenting spatial-biological databases and working with resource specialists to compile field data, perform ecological analyses, and produce maps using GIS. Primary Responsibilities included development and analysis of the GIS database, technical analysis, and graphic production.

**Steven D. Joines, Zoologist**

M.A. Anthropology, with 25 years of experience as a researcher, animal keeper, aquarist, and author of over 60 published articles and cable television programs. Primary responsibilities include technical editing.

**Mark A. Dodero, Senior Biologist**

M.S. Systematic Botany, with 20 years of experience conducting zoological and botanical surveys, including restoration of rare plant habitats, propagation of rare plants, and directed surveys for rare and endangered species such as desert tortoise. Primary responsibilities include research into habitats and species.

**Donald E. Haines, Senior Project Manager**

M.A. English with 10 years' experience in environmental impact assessment and NEPA document preparation, including preparation of the DCP EIS and Balcones Canyonlands HCP EIS. Primary responsibilities included EIS preparation.
