DESERT CONSERVATION PROGRAM PROJECT COMPLETION SUMMARY:

GILA MONSTER SEASONAL SUPPORT

2021-GBI-2040C

The work for the above reference project has been completed. Below is a summary of project related information.

The purpose of the above referenced project was:

The purpose of this project was to continue with previous Gila monster (*Heleuderma suspectum*) monitoring efforts by tracking radio telemetered Gila monsters at Red Rock National Conservation Area (NCA) using a VHF receiver and directional antenna.

The major accomplishments or findings of this project include:

- Completed monitoring of telemetered Gila monsters at Red Rock NCA;
- Surveyed for additional Gila monsters;
- Completed additional surveys for additional reptile species.
