**RE: Submittal of Clark County's Revision to Motor Vehicle Emissions Budgets for the 1997 Ozone NAAQS**

Dear Ms. Adams:

On behalf of Governor Sisolak, as his appointed designee, this letter informs you of our transmittal submitted electronically to USEPA's State Planning Electronic Collaboration System (SPeCS) of revisions to the Clark County portion of the Nevada applicable state implementation plan (SIP). The revisions regard Clark County Air Quality Regulations (AQR) and include the revision to Motor Vehicle Emissions Budgets for the 1997 Ozone National Ambient Air Quality Standards (NAAQS). The Nevada Division of Environmental Protection (NDEP) requests approval of the enclosed revisions into the Nevada applicable SIP.

The purpose of this revision is to reduce the MVEBs safety margin allocations to ensure that the 2018 Ozone Maintenance Plan Revision, when revised, will not interfere with reasonable further progress or attainment of the 2008 and 2015 ozone NAAQS. It updates the emissions inventory and approved MVEBs for volatile organic compounds and nitrogen oxides contained in the 2018 Ozone Maintenance Plan Revision. The updated MVEBs will become the projected budgets the Regional Transportation Commission of Southern Nevada will use for determining transportation conformity in the future under Section 176(c) of the Clean Air Act.

The revisions were adopted by the Clark County Board of County Commissioners on August 18, 2020. If you should have any questions about this submittal or require additional clarification, you may contact Araceli Pruett of the Clark County Division of Air Quality at (702) 455-3206.

Sincerely,

Greg Lovato  
Administrator
