Jessica L. Colvin, CPA, Comptroller

January 9, 2012

To the Honorable Board of County Commissioners and the Citizens of Clark County, Nevada:

The comprehensive annual financial report of Clark County, Nevada (the "County") for the fiscal year ended June 30, 2011, is hereby submitted. Nevada Revised Statute (NRS) 354.624 requires the County to issue a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America (GAAP) and audited in accordance with auditing standards generally accepted in the United States of America by a firm of licensed certified public accountants.

Responsibility for both the accuracy of the data and the completeness and fairness of the presentations, including all disclosures, rests with County management. To the best of our knowledge, the information in this report is accurate in all material respects and presents fairly the financial position of the various funds and component units of the County, including all disclosures necessary to understand the County's financial activities. In developing and evaluating the County's accounting system, consideration is given to the adequacy of the internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

As a recipient of federal, state and local financial assistance, the County is also responsible for ensuring that adequate internal controls are in place to ensure and document compliance with applicable laws and regulations related to these programs. These internal controls are subject to periodic evaluation by management and the internal audit staff of the County. We believe that the County's internal accounting controls adequately safeguard assets and provide reasonable assurance for the proper recording of financial transactions.

The County's financial statements have been audited by Kafoury, Armstrong and Company, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County as of and for the fiscal year ended June 30, 2011, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the County's financial statements for the fiscal year ended June 30, 2011, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

- X -

The independent audit of the financial statements of the County is part of a broader, federally mandated “Single Audit” designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government’s internal controls and compliance with legal requirements involving the administration of federal awards. These reports will be available in the County’s separately issued Single Audit report prior to March 31, 2012.

As required by GAAP, management provides a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The County’s MD&A can be found immediately following the report of the independent auditors.

The County is a political subdivision of the State of Nevada (the “State”), established in 1909 and operated under the provisions of the general laws of the State. The County seat of government is the City of Las Vegas. The County is comprised of 8,012 square miles of land area and includes five incorporated cities: Las Vegas, Henderson, North Las Vegas, Boulder City and Mesquite; 14 unincorporated towns; one school district; four library districts; one urban and two rural fire districts; one water reclamation district; one urban and three rural water districts; and eleven judicial townships. All special districts in unincorporated areas of the County are created by the Board of Clark County Commissioners (the “Board”).

The County is governed by the Board, a seven-member Commission, elected from geographic districts on a partisan basis for staggered four-year terms. Commissioners elect a chairperson who serves as the commission's presiding officer. The Board in turn hires a county manager, who is responsible for administrative operations.

The financial statements cover a wide range of regional services that are provided by the County. These include services such as those of the County Airport, Hospital, Assessor, Treasurer, Recorder, Clerk, Family Services, Social Services, as well as a criminal justice system including Courts, District Attorney, Public Defender, and Juvenile Justice Services. As a large portion of the County's population resides in its unincorporated areas, the County provides a full range of local services such as fire and police protection, road maintenance and construction, animal control, parks and recreation, building inspection, and water and sewage systems.

This report includes all funds of the County that are under the control or supervision of the Board, acting directly or in an ex-officio capacity. The governing body of the County acts in an ex-officio capacity for the Las Vegas Valley Water District (“Water District”), the University Medical Center (“UMC”), and the Clark County Water Reclamation District (“Reclamation District”); therefore, these activities are included in the reporting entity. However, the Las Vegas-Clark County Library District, Henderson Library District, Boulder City Library District, Clark County Health District, and the Las Vegas Convention and Visitors Authority have not met the established criteria for inclusion in the reporting entity, and accordingly, are excluded from this report.

The County is financially accountable for the Regional Transportation Commission of Southern Nevada (“RTC”) and the Regional Flood Control District (“Flood Control District”). The RTC and Flood Control District are reported separately within the County’s financial statements.

Additional information on the Water District, UMC, Reclamation District, RTC, and Flood Control District can be found in the notes to the financial statements (see Note 1).

The budget serves as the foundation for the County’s financial planning and control systems. The Board holds

public hearings on the proposed budget prior to adopting the final budget and setting the tax rates for the fiscal year. The Board is required to adopt a final budget by June 1 of each year.

ECONOMIC CONDITION AND OUTLOOK

The County, with a population of two million as of June 30, 2011, is the most populous of Nevada's 17 counties. The warm climate and friendly tax structure helped fuel growth in the Las Vegas Valley for over two decades. In keeping up with this growth, the County has undergone tremendous change. The County's challenge is to serve the growing resident and visitor population with adequate infrastructure and support services.

The County is a community that historically has been reliant on the resort and gaming industry. Up until the Great Depression, the County's economy relied solely on railroading, mining and ranching. In 1931, to counter the effects of the depression, the Nevada State Legislature passed legislation to legalize gambling. While the resort and gaming industry remains the mainstay of the County's economy, industrial centers, retirement communities, the federal government, distribution centers and light manufacturing provide a balance to the service concentration of the economy. Efforts to diversify the local economy have resulted in the development of retail and wholesale trade, construction, transportation, health services, finance, insurance and real estate employment, and in providing attractive opportunities for high technology companies.

The County is one of the top resort and convention destinations in the world, attracting over 37.3 million tourists in 2010 who came to enjoy world-class entertainment and hospitality, splendid casinos, fine restaurants and an array of shopping venues. The County is home to the world-famous Las Vegas Strip, site of 17 of the nation's 20 largest hotels. The centerpiece of convention and meeting activity is the Las Vegas Convention Center, one of the most modern and versatile meeting facilities in the country. The Convention Center boasts over two million total square feet of exhibit space, 144 meeting rooms and 16 exhibit halls, all within a short distance of more than 140,000 guest rooms.

For the first nine calendar months of 2011, the average occupancy rate was 85.2 percent for the over 150,000 rooms in Las Vegas, up from 81.5 percent in 2010, and 82.8 percent in 2009. Average room rates increased over 12.9 percent from June 2010 to June 2011 and gaming revenues increased approximately 4.1 percent for the fiscal year.

Total inventory increased by over 200 rooms during the fiscal year. This figure includes 2,000 rooms and 150,000 square feet of convention space associated with the initial phase of the Cosmopolitan, a luxury branded property that opened on the Las Vegas Strip in December 2010, offset by the closure of the Sahara Hotel, consisting of 1,720 rooms and 10,000 square feet of convention space, also located on the Las Vegas Strip. As of September 2011, 1,868 additional rooms and 4,000 additional square feet of convention space are under construction and expected to be added in fiscal year 2012. Approximately 640 rooms and 4,000 additional square feet of convention space are expected to be added in fiscal year 2013. However, not all of the anticipated projects have begun design or construction. Projects under construction may be significantly delayed or abandoned at the discretion of the applicable developer. Therefore, these estimates remain subject to change.

The softer economic conditions that originally emerged during the 2007 fiscal year have worsened. Population growth has leveled out, consumer spending has remained low, foreclosure rates in Clark County are among the highest in the nation, tourism and construction have declined, and unemployment remained above the national average. The local unemployment rate decreased from 14.0 percent at June 30, 2010, to 13.8 percent at June 30, 2011, still well above the national average of 9.2 percent.

However, the local economy is beginning to show signs of a slight recovery as visitor volume and gaming revenues continue to rise. Because the Southern Nevada economy is heavily dependent on tourism, future recovery is highly dependent on the growth of the U.S. and global economies.

DEBT ADMINISTRATION

A formal Debt Management Policy (the "Policy") has been adopted by the Board. The purpose of the Policy is to manage the issuance of the County's debt obligations and to maintain the County's ability to incur debt and other long-term obligations at favorable interest rates for capital improvements, facilities, and equipment needed for essential services. The Policy is updated annually and submitted to the County Clerk, the Clerk of the Debt Management Commission, and the State Department of Taxation. The County Manager and the Chief Financial Officer are responsible for the administration of the Policy, with the Board ultimately responsible for approval of the form of any County borrowing. Credit ratings indicate to potential buyers whether a governmental entity is considered a good credit risk. Credit ratings issued by the bond rating agencies are a major factor in determining the cost of borrowed funds in the municipal bond market. Moody's Investors Service and Standard & Poor's, the two principal rating agencies for municipal debt, have given the County favorable general obligation bond ratings of "Aa1" and "AA+," respectively. The County's conservative financial management practices and tax base have contributed to these ratings, which are the highest in the State of Nevada.

CERTIFICATE OF ACHIEVEMENT

The Government Finance Officers Association of the United States and Canada (the "GFOA") awarded a Certificate of Achievement for Excellence in Financial Reporting to Clark County, Nevada for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2010. The Certificate of Achievement is a prestigious award recognizing conformance with the highest standards for preparation of a state and local government financial report.

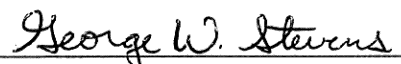

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report whose contents conform to program standards. The report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. Clark County, Nevada has received a Certificate of Achievement for the last 30 consecutive years (fiscal years ended 1981-2010). We believe our current report continues to conform to Certificate of Achievement Program requirements, and we are submitting it to the GFOA.

ACKNOWLEDGMENTS

We thank the staff of the Comptroller's Office and the independent certified public accounting firm of Kafoury, Armstrong and Company.

We commend the Board of County Commissioners and the staff of the County Manager's Office for conducting the affairs of the County in a competent and professional manner.

Respectfully submitted,

GEORGE W. STEVENS

INDEPENDENT AUDITOR'S REPORT

To the Honorable Board of County Commissioners
and the County Manager
Clark County, Nevada

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of Clark County, Nevada, as of and for the year ended June 30, 2011, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of University Medical Center of Southern Nevada, Las Vegas Valley Water District, or Big Bend Water District, which, when combined, represent 30 percent, 27 percent, and 56 percent, respectively, of the assets, net assets, and revenues of the Enterprise Funds. Additionally, we did not audit the financial statements of the Regional Transportation Commission of Southern Nevada, a discretely presented component unit. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for University Medical Center of Southern Nevada, Las Vegas Valley Water District, Big Bend Water District, and Regional Transportation Commission of Southern Nevada is based solely on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the County as of June 30, 2011, and the respective changes in financial position and cash flows, where applicable, thereof, for the year

then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 9, 2012, on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis, the budgetary comparison information, and pension and OPEB trend data and related notes on pages 3 through 12 and 129 through 150 are not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures to the management's discussion and analysis and pension and OPEB trend data, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it. The budgetary comparison information and related notes have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Clark County, Nevada's basic financial statements as a whole. The introductory section, combining and individual fund statements and schedules and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. We also have previously audited, in accordance with auditing standards generally accepted in the United States, the County's basic financial statements for the year ended June 30, 2010, which are not presented with the accompanying financial statements. In our report dated January 4, 2011, we expressed unqualified opinions on the respective financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information. In our opinion, the 2010 individual fund schedules are fairly stated in all material respects in relation to the basic financial statements for the year ended June 30, 2010, taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

- The auditor's report offers an unqualified opinion that the County's financial statements are presented fairly in all material respects.
- Government-wide net assets totaled \$11,846,073,202. Net assets of governmental activities totaled \$7,512,435,065 and those of business-type activities totaled \$4,333,638,137.
- The County's total net assets increased by \$53,189,683, resulting from an increase in net assets from governmental activities of \$67,457,820 and a decrease in net assets from business-type activities of \$14,268,137. Net assets from governmental activities increased mainly due to continued cost containment efforts and a 5% increase in both consolidated and sales taxes. Net assets from business-type activities decreased due to operating losses of University Medical Center and the Las Vegas Valley Water District, as well as a one-time loss by the Water Reclamation District of funds invested in the Clean Water Coalition.
- Unrestricted net assets were \$2,182,059,763, with \$1,353,189,536 resulting from governmental activities and \$828,870,227 from business-type activities. Unrestricted net assets from governmental activities increased by 21 percent from the prior year, and unrestricted net assets from business-type activities increased by 14 percent over the prior year.
- Net capital assets were \$14,562,144,685 of which \$5,972,206,597 were from governmental activities and \$8,589,938,088 were from business-type activities. Major additions for governmental activities during the year included \$182 million toward beltways, roadways, and streets, and \$89 million toward flood control projects. Major additions for business-type activities during the year included \$30 million in water system additions, \$113 million for terminal 3 and other additions for the Department of Aviation, and \$333 million in sewer system additions. Depreciation expense attributable to assets of governmental activities amounted to \$233,415,343 for the year, and \$302,871,157 for business-type activities.
- Bonds and loans payable totaled \$9,725,978,319. There were no new debt issues for governmental activities during the fiscal year. The following new debt was issued for business-type activities during the fiscal year:
 - General obligation bonds:
 - \$1,643,669 in bonds for the Clark County Water Reclamation District
 - \$58,110,000 in bonds for the Las Vegas Valley Water District
 - Revenue bonds
 - \$100,000,000 in bonds for the Department of Aviation
- The County's primary revenue sources for governmental activities were ad valorem taxes (\$601,438,779) consolidated taxes (\$403,987,801), and sales and use taxes (\$218,240,722). These three revenue sources comprised 23 percent, 16 percent, and 8 percent, respectively, or 47 percent of total governmental activities revenues.

- The County's total expenses were \$4,209,325,586. Governmental activities comprised \$2,534,043,816 of total expenses, the largest functional expenses being public safety (\$1,160,142,925) and public works (\$418,406,823). Business-type activities contributed \$1,675,281,770 to total expenses, the largest components being hospital (\$569,477,328), airport (\$517,023,190), and water (\$383,354,972).
- General government expenses were \$187,548,288, or 19 percent less than the prior year due to cost containment, the inactivation of the Clark County Redevelopment Agency and the transfer of information technology costs to an internal service fund.
- Welfare expenses were \$156,825,380 or 15 percent less than the prior year due to a decrease in available property taxes.
- At the end of the fiscal year, the unassigned fund balance for the General Fund was \$159,723,367 or 10 percent of total General Fund expenditures and transfers out.

Overview of the Financial Statements

- This discussion and analysis is intended to serve as an introduction to the County's basic financial statements which are composed of government-wide financial statements, fund financial statements, and accompanying notes. This report also contains required supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements

- o The government-wide financial statements are designed to provide readers with a broad overview of the County's finances in a manner similar to a private-sector business.
- o The statement of net assets presents information on all of the County's assets, deferred outflows, liabilities, and deferred inflows. The difference between assets and deferred outflows less liabilities and deferred inflows is reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.
- o The statement of activities presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation and sick leave).
- o The government-wide financial statements report three types of activities: governmental activities, business-type activities, and discretely presented component units. The government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, judicial, public safety, public works, health, welfare, culture and recreation, community support, other, and interest on long-term debt. The business-type activities of the County include operations of its hospital, airports, water and sewer utilities, and other operations. Discretely presented component units account for functions of legally separate entities for whom the County is financially accountable, but whose governing bodies are not substantially the same as the County. The activities of the discretely presented component units include regional transportation and flood control planning. Complete financial statements of the individual component units can be obtained from their respective administrative offices. Contact information is included in The Reporting Entity section of Note I, Summary of Significant Accounting Policies.
- o The government-wide financial statements include not only the business-type activities of the County itself (known as the primary government), but also those of the legally separate component units: UMC, Las Vegas Valley Water District, and the Clark County Water Reclamation District. The Board of County Commissioners acts as the governing board for each of these component units whose activities are blended with those of the primary government because they function as part of the County government. Complete financial statements of the individual component

units can be obtained from their respective administrative offices. Contact information is included in The Reporting Entity section of Note I, Summary of Significant Accounting Policies.

Fund Financial Statements

- o A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

- Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financial requirements.
- Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.
- The County maintains individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund and the Las Vegas Metropolitan Police Department fund, both of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds are provided in the combining and individual fund statements and schedules. In accordance with Governmental Accounting Standards Board (GASB) Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions* certain special revenue funds have been included in the General Fund for financial reporting purposes as shown in the Major Governmental Funds section. These funds are not included for budgetary comparison purposes described below.
- The County adopts an annual appropriated budget for each of its governmental funds. A budgetary comparison statement is provided for each of the County's governmental funds to demonstrate compliance with the budget. The budgetary comparison statements for the major governmental funds are presented as required supplementary information; the budgetary comparison statements for all other governmental funds are included in the fund financial statements accompanying information.

Proprietary Funds

- The County maintains two distinct types of proprietary funds.
 - ◆ Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its hospital, airport, water, sewer, and other activities.
 - ◆ Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements. The County uses internal service funds to account for the following activities:
 - * Construction management

- * Fleet maintenance
 - * Investment pool operations
 - * Employee benefits
 - * Central printing and mailing
 - * Information systems development
 - * Self-insurance activities, including:
 - + Liability insurance
 - + Workers' compensation
 - + Group insurance
 - + Other post-employment benefits
- Proprietary funds provide the same type of information as the government-wide financial statements, but with more detail. The proprietary fund financial statements provide separate information for UMC, Clark County Water Reclamation District, and the Las Vegas Valley Water District, each of which is a blended component unit and reported as a major fund within the fund financial statements. In addition, separate information is provided for an additional major fund, the Department of Aviation. Conversely, the internal service funds are combined into a single aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the combining and individual fund statements and schedules.

Fiduciary Funds

- The County's fiduciary funds consist of two (2) employee benefit funds, one (1) pension fund, and 41 agency funds. The employee benefit funds are the Medical Insurance Premium Retirement Plan and the County Section 125 Plan. The pension fund is the Las Vegas Valley Water District Pension Plan. The agency funds are used to hold monies for other entities or individuals until disposition.

Notes to Financial Statements

- The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

- In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Las Vegas Valley Water District's progress in funding its obligation to provide pension benefits to its employees as well as a schedule of funding progress for other post-employment benefits. It also includes a schedule of budgetary comparisons for the following major governmental funds:
 - ◆ General Fund
 - ◆ Las Vegas Metropolitan Police Department Special Revenue Fund
- The combining statements and individual fund schedules are presented immediately following the required supplementary information.
- Unaudited statistical information is provided on a ten-year basis for trend and historical analysis, except where data is not available due to the initial year of GASB Statement No. 34 presentation.

Government-Wide Financial Analysis

- Net assets of the County as of June 30, 2011, and June 30, 2010, are summarized and analyzed below:

- As noted earlier, net assets may serve over time as a useful indicator of the County's financial position. Assets exceeded liabilities by \$11,846,073,202 as of June 30, 2011, and by \$11,792,883,519 as of June 30, 2010, a net increase of \$53,189,683, or one (1) percent.
- The largest portion of the County's net assets (70 percent) reflects its investment in capital assets (e.g., land, buildings, infrastructure, machinery and equipment, etc.), less any related debt outstanding used to acquire those assets (unspent proceeds from long-term debt issues). The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate the debt.
- The County's restricted net assets (12 percent) represent resources that are subject to external restrictions on how they may be used. Of these restricted net assets, 43 percent is for construction of capital assets, 26 percent is for repayment of long-term debt, 14 percent is for police protection, and the balance is restricted for the County's special revenue funds or other purposes.
- The remaining portion of the County's net assets (18 percent) is unrestricted and may be used to meet the County's ongoing obligations to citizens and creditors.
- At June 30, 2011, the County had positive balances in all three categories of net assets, both for the government as a whole, as well as for separate governmental and business-type activities

- Program revenues included charges for services, fines and forfeitures, certain licenses and permits, special assessments, and both operating and capital grants and contributions. Program revenues from governmental activities decreased by \$95,456,615, or eight (8) percent, due to decreases in donated infrastructure, partially offset by increases in federal grant activity. Program revenues from business-type activities increased by \$19,771,856, or one (1) percent, with slight increases in all categories
- General revenues consisted of taxes and interest not allocable to specific programs. For governmental activities, the largest of these revenues, ad valorem taxes, decreased by \$172,517,420, or 22 percent. This decrease was due mainly to decreases in commercial assessed valuation. Consolidated tax increased by \$20,621,270, or five (5) percent, and sales

and use tax increased in governmental activities by \$9,294,696, or four (4) percent, both due to increased economic activity in the local economy during fiscal year 2011. Franchise fees increased by \$8,495,871 or nine (9) percent, due to non-recurring audit assessments. Interest revenue for governmental activities decreased by \$41,582,386 or 55 percent; interest revenue for business-type activities decreased by \$17,955,554, or 44 percent. These decreases were due to lower rates of investment returns.

- County governmental activity expenses decreased five (5) percent in fiscal year 2011. Decreases in general government of \$ 43,154,106 or 19 percent were due to cost containment efforts, the deactivation of the Clark County Redevelopment Agency and the transfer of information technology costs to an internal service fund. Public Safety expenses decreased by \$52,466,371, or four (4) percent due to cost containment and decreased capital outlay. Public works expenses decreased by 18,473,345, or four (4) percent due to decreased road construction and financing. Welfare support expenses decreased by \$27,267,725, or 15 percent, due reductions in property taxes available to fund this function. Sewer functional area expenses increased \$36,072,374, or 31 percent, due to a one-time loss of funds invested in the Clean Water Coalition.

Financial Analysis of the County's Funds

- The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

- The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements.
- As of the end of the current fiscal year, the County's governmental funds reported a combined ending fund balance of \$2,223,045,950, a decrease of \$104,759,736, or five (5) percent, from the prior year primarily due to reduced fund balances in capital projects funds. As mentioned previously, the County implemented GASB Statement 54, *Fund Balance Reporting and Government Fund Type Definitions*, which changed the classification of fund balances and clarified the definitions of governmental fund types. Fund balance components have been classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the County is bound to observe constraints imposed on the use of the resources of fund. Restricted fund balance is \$936,141,551 or 42% of the total. Spending of these resources is constrained by externally imposed (statutory, bond covenant, or grantors) limitations on their use. Restricted fund balances include \$376,965,225 for capital projects and \$196,088,919 for public safety activities and \$178,312,212 for debt service.

Committed and assigned fund balances combined represent 49% of total fund balance with spending constrained either by the Board of County Commissioners (BCC) (for committed) or senior management (for assigned). Committed balances in the special revenue funds are primarily due to transfers or revenues directed by the BCC to those funds to support the programs. Unassigned fund balance represents the General Fund remaining fund balance and is available to support general operations of the fund.

- The General Fund is the main operating fund of the County. Fund balance categories have changed from the prior year as a result of the implementation of GASB Statement 54. Nonspendable fund balance consists of long-term receivables. Restricted fund balance of \$69,691,630 includes restricted cash and unspent proceeds from legislatively mandated ad valorem taxes. Unrestricted fund balance, which includes committed, assigned, and unassigned balances, totaled 266,253,115 at June 30, 2011. Unrestricted fund balance was 17% of expenditures and other financing uses and includes amounts assigned of \$106,529,748. Unassigned fund balance is 159,723,367, or 10% of expenditures and other financing uses.
- Key factors in the change in fund balance in the General Fund as reported for budget purposes are as follows:
 - Revenues and transfers-in decreased by \$44,094,014, or three (3) percent. General fund revenues decreased by \$73,544,519, or eight (8) percent. Ad valorem tax revenues generated the largest revenue decrease of \$69,067,918, or 20 percent, due to commercial valuation decreases. Licenses and permits increased by \$8,621,834 or four (4) percent due to non-recurring franchise fee audit assessments. Intergovernmental revenue, the largest component of which is the consolidated tax, increased by \$13,418,899, or five (5) percent, due to the increased

economic activity in the local economy. Charges for services increased by \$5,125,886 or seven (7) percent, largely due to first-time overhead charges to the IT function, which was included in the general fund in prior years. Interest income decreased by \$4,006,506, or 83 percent, due to lower interest rates. Other revenues decreased due to a \$25 million land sale last year.

- Expenditures and transfers out decreased by \$101,982,929, or eight (8) percent. General fund expenditures decreased \$22,974,168, or three (3) percent primarily due to continued cost containment procedures and a partial transfer of the information technology function to an internal service fund. Transfers out decreased by \$79,008,761, or 16 percent primarily due to reductions in transfers to capital project funds and to the Las Vegas Metropolitan Police Department.

o Other major fund activity is as follows:

- The Las Vegas Metropolitan Police Department operates from current year resources and it typically budgets for a lower fund balance than other governmental units. However, it ended the year with a total unrestricted fund balance of \$78,550,254. Total revenues and transfers in were \$510,524,091, which was a decrease of \$55,191,434 or 10 percent, over the prior year. This decrease occurred primarily due to a reduction of property taxes. Expenditures, which are primarily personnel costs, decreased \$22,965,565 or four (4) percent.
- The non-major governmental funds showed a fund balance of \$1,784,508,183, of which \$866,449,921 or 49% was restricted. All funds have the resources to meet their commitments.

Enterprise Funds

- The County’s enterprise funds provide the same type of information found in the government-wide financial statements, but in more detail. Minor differences arise between the enterprise funds and the business-type activities in the government-wide statements due to the effects of consolidation of internal service fund activities related to the enterprise funds. Unrestricted net assets of the enterprise funds totaled \$841,541,658, an increase of \$104,145,324, or 14 percent. Total net assets for these funds decreased \$14,268,137, one (1) percent from the prior year. Other factors concerning the finances of these funds have already been addressed in the discussion of the County’s business-type activities.

Internal Service Funds

- The County’s internal service funds are an accounting device used to accumulate and allocate costs internally among the County’s various functions. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements. Other factors concerning the finances of the internal service funds have already been addressed in the discussion of the County’s governmental activities.

Budgetary Highlights

- The General Fund’s legal level of budgetary control is the function level. The final amended budget for expenditure appropriation was \$824,511,814, unchanged from the original budget. Actual expenditures were \$787,459,207, or four (4) percent less than the final budget, primarily due to the County’s cost containment efforts.
- Revenues of the general fund exceeded the final budget by \$31,722,569, or four (4) percent due to an increase in consolidated and sales taxes, as well as non-recurring franchise fee audit assessments.

Economic Factors

- UMC continues to deal with the impact of uninsured patients. UMC's operating loss was \$94,512,750 for the fiscal year 2011 compared to \$85,011,779 in fiscal year 2010. Continued high levels of care for uninsured and underinsured patients, and a decrease in State Medicaid funding contributed to the increased operating loss. The County will need to continue to fund these continued losses.
- Despite UMC's financial difficulties, the County has positioned itself to meet the needs of its citizens. The decrease in taxable values has leveled out and the remaining tax base will generate adequate revenues to provide basic services. A cost containment program continues to be in place, enforcing a reasonable pace of salary growth and position savings. The County's general fund unassigned ending fund balance remains healthy. Together, these factors have placed the County in an acceptable financial position to mitigate the current economic uncertainty. However, the length of the economic downturn could ultimately result in a continued deterioration of the County's financial condition.

Requests for Information

- This report is designed to provide a general overview of the County's finances for all interested parties. Questions concerning the information provided in this report or requests for additional financial information should be addressed to Jessica L. Colvin, Comptroller, at 500 South Grand Central Parkway, Las Vegas, NV 89155.

Clark County, Nevada
Reconciliation of Statement of Revenues, Expenditures, and Changes in
Fund Balances of Governmental Funds to the Statement of Activities
For the year ended June 30, 2011

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances – governmental funds \$ (104,759,736)

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is depreciated over their estimated useful lives. Also, the County relinquished infrastructure that was annexed by the cities. The County does not capitalize items costing less than \$5,000.

Capital outlay recorded in governmental funds	\$229,506,084	
Less amounts not capitalized	<u>(36,819,078)</u>	
Capitalized expenditures	192,687,006	
Less current year depreciation	<u>(232,693,908)</u>	(40,006,902)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds:

Donated capital assets	159,707,192	
Gain on sale of capital assets	65,545	
Change in deferred revenue	(18,503,074)	
Bond bank operating contribution	<u>(4,355,000)</u>	136,914,663

Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount by which bonds issued exceeded repayments:

Accrued interest	835,330	
Amortized bond costs	1,524,860	
Principal payment	<u>80,632,106</u>	82,992,296

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds:

Change in long-term compensated absences	\$9,708,321	
Change in LVMPD OPEB liability	(38,730,694)	
Change in arbitrage rebate liability	<u>100,000</u>	\$(28,922,373)
Long-term LVMPD OPEB receivable due from the City of Las Vegas		13,354,544
Internal service funds are used by management to charge the costs of certain activities to individual funds. The net expense of the internal service funds is reported with governmental activities.		4,310,635
Increase to internal balances that are receivable from business-type activities.		<u>3,574,693</u>
Change in net assets of governmental activities		<u>\$67,457,820</u>

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Reporting Entity

Clark County, Nevada (the County) is a municipality governed by an elected seven-member board. As required by accounting principles generally accepted in the United States of America (GAAP), these financial statements present Clark County, Nevada (the primary government) and its component units.

Blended Component Units

Included as blended component units are the Las Vegas Valley Water District (Water District), Big Bend Water District, University Medical Center of Southern Nevada (UMC), Clark County Water Reclamation District (Reclamation District) and the Clark County Redevelopment Agency (Redevelopment Agency).

Although each of the above-mentioned governmental units operates as a separate entity, the members of the Board of Clark County Commissioners are also the board members (ex-officio) of each entity. Because each of the component units has substantially the same governing body as the primary government, they are blended into the financial statements. The operations of the Water District, Big Bend Water District, UMC, and the Reclamation District are reflected as enterprise funds. The Redevelopment Agency is reflected as a special revenue fund.

Discretely Presented Component Units

Included as discretely presented component units are the Regional Transportation Commission of Southern Nevada (RTC) and the Clark County Regional Flood Control District (Flood Control District). The RTC and the Flood Control District are governed by two members of the Board of County Commissioners, two members of the City of Las Vegas Council, and one member from the city council of every other incorporated city in Clark County. The County is financially accountable for RTC and Flood Control District, and exclusion of these units would render the financial statements of the County incomplete.

Separately issued financial statements for the component units may be obtained by contacting the component units at the following addresses:

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the County and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, are generally followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board (GASB). Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The County has elected not to follow subsequent private-sector guidance.

Government-Wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges for services between the governmental activities and business-type activities. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current year or soon enough thereafter to pay liabilities of the current year. For this purpose, the County considers revenues, excluding property taxes, to be available if they are collected within 90 days after the end of the current fiscal year. Property taxes are considered available if collected within 60 days after the end of the current fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, consolidated taxes, franchise fees, interest revenue, and charges for services associated with the current fiscal year are considered to be susceptible to accrual and have been recognized as revenues in the current year. Only the portion of special assessments receivable due within the fiscal year is considered to be susceptible to accrual as revenue of the current year. Fines and forfeitures, as well as licenses and permits, are not susceptible to accrual as they are generally not measurable until received in cash.

The proprietary fund and employee benefit and pension fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's enterprise funds and internal service funds are charges to customers for sales and services. The County also recognizes as operating revenue the portion of tap fees of the Reclamation District and Water District funds that are intended to recover the cost of connecting new customers to their system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The County reports the following major governmental funds:

The General Fund is the County's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.

The Las Vegas Metropolitan Police Department Fund accounts for the operation of a police department serving the citizens of unincorporated Clark County and the City of Las Vegas.

The County reports the following major enterprise funds:

The University Medical Center Fund is a blended component unit of the County. It accounts for the operations of the County's hospital.

Fund Financial Statements (Continued)

The Water Reclamation District Fund is a blended component unit of the County. It accounts for the operations of the County's sewage treatment facilities.

The Water District Fund is a blended component unit of the County. It accounts for the operations of the County's water distribution system.

The Department of Aviation Fund accounts for the operations of McCarran International Airport, North Las Vegas Airport, Henderson Executive Airport, Jean Sport Aviation Airport, Perkins Field in Overton, Nevada, and Searchlight Airport.

Additionally, the County reports the following fund types:

Internal service funds account for printing and mailing, fleet management, employee benefits, property management, information technology, enterprise resource planning, investment pool costs and self-insurance services provided to other departments or agencies of the County, or to other governments, on a cost reimbursement basis.

Fiduciary funds include the Medical Insurance Premium Retirement Plan fund, the County Section 125 Plan fund, and the Las Vegas Valley Water District Pension Plan fund. These funds account for resources that are required to be held in trust for the members and beneficiaries of the employee benefit plans or for pension benefit payments to qualified employees.

The agency funds are also included as fiduciary funds and they account for assets held by the County as an agent for other governmental entities. The most significant activity in the agency funds is the collection and transfer of taxes to other local governmental entities, primarily ad valorem and room taxes.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

Assets, Liabilities, and Net Assets or Equity

Investments

With the exception of the Water Reclamation District and Water District, the County pools the cash of its individual funds for investment purposes. Each fund in the pool records its own interest earnings. At year end, all the investments in the pool are adjusted to fair value, regardless of the length of time remaining to maturity. The proportionate share of each fund's unrealized gain or loss at year end is adjusted against the interest earnings of the individual funds. The Water Reclamation District and Water District also adjust their investments to fair value, but only to the extent that they are maturing longer than a year from year end. (Also see Note III.1.)

Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the

governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

The accounts receivable are shown net of any provision for doubtful accounts.

Inventories and Prepaid Items

The Water District enterprise fund inventories are valued at the weighted average moving cost. The inventories of the other proprietary funds are valued at the lower of cost, determined by first-in, first-out method, or market. Inventories consist primarily of materials and supplies.

Certain payments to vendors reflect costs benefiting future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Restricted Assets

Restricted assets consist of cash and cash equivalents, investments and certain receivables that are restricted in their use by bond covenants or other external agreements. They are primarily used to meet debt service obligations.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, sidewalks, bridges, flood control structures, traffic signals, streetlights, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Significant projects in process are depreciated once the projects are placed in service. Prior to that time, they are reported as construction in progress. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	20-50
Land improvements	5-75
Infrastructure	25-50
Equipment	5-20

Compensated Absences

It is the County's policy to permit employees to accumulate earned, but unused vacation and sick leave benefits. Such benefits are accrued when incurred in the government-wide and proprietary financial statements.

Long-Term Obligations

In the government-wide financial statements and proprietary fund types in fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources whereas discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Assets or Equity

In the government-wide statements and in proprietary fund statements, equity is classified as net assets and displayed in three components.

- Invested in capital assets, net of related debt – Capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets net of unspent financing proceeds.
- Restricted net assets – Net assets with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.
- Unrestricted net assets – All other net assets that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

In governmental fund financial statements equity is classified as fund balance and is displayed in up to five components based primarily on the extent to which the County is bound to observe constraints imposed on the use of fund resources. These components are as follows:

- Nonspendable fund balances – Amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash, for example, inventories and prepaid amounts. It also includes the long-term amount of loans and notes receivable.
- Restricted fund balances - Similar to restricted net assets discussed above, these are amounts with constraints placed on their use either by (a) external groups such as creditors, grantors, contributors, or

- Laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.
- Committed fund balances – Amounts with constraints imposed by formal action of the Board of County Commissioners (BCC) through resolution or public meeting minutes that specifically state the revenue source and purpose of the commitment. Commitments can only be modified or rescinded through public meeting actions or resolutions by the BCC. Commitments can also include resources required to meet contractual obligations approved by the BCC.
- Assigned fund balances – Amounts intended to be used for specific purposes by authorized County management that do not meet the criteria to be classified as restricted or committed. In the General Fund, the assigned fund balance represents management approved encumbrances that have been re-appropriated in the subsequent year, and amounts necessary to fund budgetary shortfalls in the next fiscal year from unassigned resources. Senior County management is authorized to assign fund balances.
- Unassigned fund balances – Amounts in the General Fund not contained in other classifications. For other governmental funds, the unassigned classification is used only to report a deficit balance resulting from expenditures exceeding amounts that had been restricted, committed or assigned for specific purposes.

Based on the County's policy regarding the fund balance classification as noted above, when both restricted and unrestricted funds are available for expenditure, restricted funds should be spent first unless legal requirements disallow it. When expenditures are incurred for purposes for which amounts in any unrestricted fund balance classifications could be used, committed funds are to be spent first, assigned funds second, and unassigned funds last.

Accounting Changes and Restatements

The County implemented Governmental Accounting Standards Board (GASB) Statement 53, *Accounting and Financial Reporting for Derivative Instruments*, which addresses the recognition, measurement and disclosure of information regarding derivative instruments entered into by state and local governments. As a result of this statement, two new financial statement elements – deferred outflows and deferred inflows – have been added to the Statement of Net Assets. Deferred outflows are added to net assets and deferred inflows are subtracted from net assets. Refer to the “Derivative Instruments” section of Note 6 for more details.

During the year, certain accounting changes were made that required the restatement of fund balances and net assets as shown and discussed below:

Accounting Changes and Restatements (Continued)

The County implemented GASB Statement 54, *Fund Balance Reporting and Government Fund Type Definitions*, which changed the classification of fund balances and clarified the definitions of the general fund and other fund types. Several of the County's funds including the Master Transportation Fund, accounted for as special revenue funds in prior years, no longer meet the definition of a special revenue fund under GASB Statement 54. Fund balances in the general fund and special revenue funds have been restated by \$214,317,491 to reflect this change.

Reclassifications

Certain amounts in the prior year statements have been reclassified for comparison purposes to conform to the current year presentation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Excess of Expenditures Over Appropriations

For the fiscal year ended June 30, 2011, the following funds exceeded appropriations:

The Kyle Canyon Water District nonmajor enterprise fund expenses exceeded appropriations by \$17,912. The Other Post-Employment Benefits Reserve internal service fund expenses exceeded appropriations by \$14,864,463.

III. DETAILED NOTES – ALL FUNDS

1. CASH AND INVESTMENTS

Deposits

According to state statutes, County monies must be deposited with federally insured banks, credit unions, or savings and loan associations within the County. The County is authorized to use demand accounts, time accounts, and certificates of deposit. State statutes do not specifically require collateral for demand deposits, but do specify that collateral for time deposits may be of the same type as those described for permissible investments. Permissible investments are similar to allowable County investments described below, except that statutes permit a longer term and include securities issued by municipalities within Nevada. The County's deposits are fully covered by federal depository insurance or collateral held by the County's agent in the County's name. The County has written custodial agreements with the various financial institutions' trust banks for demand deposits and certificates of deposits. These custodial agreements pledge securities totaling 102 percent of the deposits with each financial institution. The County has a written agreement with the State Treasurer for monitoring the collateral maintained by the County's depository institutions.

1. CASH AND INVESTMENTS (Continued)

Deposits (Continued)

All deposits are subject to credit risk. Credit risk is defined as the risk that another party to a deposit or investment transaction (counterparty) will not fulfill its obligations. At year end, the bank balance of deposits held in custody of the County Treasurer was \$102,595,646 and the carrying amount was \$75,520,731. The County utilizes zero balance sweep accounts and there are money market funds available to cover amounts presented for payment.

The bank balance of deposits held in the custody of other officials was \$280,173,896 and the carrying amount was \$274,747,559. The bank balance and the carrying value of deposits with fiscal agent was \$5,091,955.

At June 30, 2011, the fair value of Countywide deposits, investments, derivative instruments, and loaned securities reinvested consisted of the following:

Total Cash, Investments, Derivative Instruments, and Loaned Securities Reinvested
All Entities Combined

		<u>Fair Value</u>
Investments	\$5,444,506,181	
Derivative Instruments	48,928,789	
Loaned Securities	<u>502,566,468</u>	\$5,996,001,438
Cash		355,360,245
Water District Pension		<u>183,198,772</u>
 Grand total		 <u>\$6,534,560,455</u>

Investments

When investing monies, the County is required to be in conformance with state statutes and written policies adopted by the Board of County Commissioners designating allowable investments and the safeguarding of those investments. The County invests monies both by individual fund and through a pooling of monies. The pooled monies, referred to as the investment pool, are theoretically invested on the whole and not as a combination of monies from each fund belonging to the pool. In this manner, the County Treasurer is able to invest the monies at a higher interest rate for a longer period of time. Interest is apportioned monthly to each fund in the pool based on the average daily cash balances of the funds for the month in which the investment matures. Cash and investments in the custody of the County Treasurer comprise the investment pool.

Securities purchased by the County are delivered against payments and held in a custodial safekeeping account with the trust department of a bank designated by the County.

As described above, the cash and investments in custody of the County Treasurer are invested as a pool. Entity-wide investment pools are considered to have the general characteristics of demand deposits in that the entity may deposit additional funds at any time and also effectively may withdraw funds at any time without prior notice or penalty.

III. DETAILED NOTES – ALL FUNDS (Continued)

1. CASH AND INVESTMENTS (Continued)

Investments (Continued)

Therefore, cash and investments in custody of the County Treasurer for the proprietary funds are considered cash equivalents for the purposes of the statement of cash flows, in addition to cash in custody of other officials and cash with fiscal agent. Cash received as collateral for loaned securities is not considered a cash equivalent for the purpose of the statement of cash flows.

State statutes authorize the County to invest in the following: obligations of the U.S. Treasury and U.S. agencies not to exceed ten years maturity; negotiable notes or short-term negotiable bonds issued by other local governments of the State of Nevada; negotiable certificates of deposit insured by commercial banks, credit unions or savings and loan associations; nonnegotiable certificates of deposit issued by insured commercial banks, credit unions or savings and loan associations, except certificates that are not within limits of insurance provided by the Federal Deposit Insurance Corporation, unless those certificates are collateralized as is required for uninsured deposits; bankers' acceptances eligible for rediscount with federal reserve banks, not to exceed 180 days maturity and 20 percent of total investments; obligations of state and local governments if the interest on the obligation is tax exempt and is rated "A" or its equivalent; commercial paper having an "A-1" rating or equivalent, not to exceed 270 days maturity and 20 percent of the total investments; money market mutual funds with "AAA" rating invested only in federal government or agency securities; master notes, bank notes or other short-term commercial paper rated "A-1" or its equivalent, or in repurchase agreements fully collateralized by such securities; notes, bonds, and other unconditional obligations issued by corporations organized and operating in the United States, having an "A" rating or equivalent, not to exceed 5 years maturity and 20 percent of the total investments; collateralized mortgage obligations that are rated "AAA" or its equivalent, not to exceed 20 percent of the total investments; asset-backed securities that are rated "AAA" or its equivalent, not to exceed 20 percent of the total investments; repurchase agreements that are collateralized at 102 percent and are executed with a primary dealer, not to exceed 90 days maturity. State statutes require the County to invest with security dealers who are primary dealers when investing in repurchase agreements. Primary dealers are a group of dealers that submit daily reports of market positions and monthly financial statements to the Federal Reserve Bank of New York and are subject to its formal oversight.

The managing institution of the Domestic Bond Fund reports an overall rating of AA at June 30, 2011, for the underlying securities. The fund is benchmarked off the Capital Aggregate Bond Index; therefore, the fund uses Barclays' rating methodology. The methodology uses the middle rating of Moody's, Standard & Poor's, and Fitch after dropping the highest and lowest available ratings. The AAA/Aaa ratings for the Money Market Fund were by Standard & Poor's and Moody's.

The amounts above include cash and investment balances for the RTC and the Flood Control District of \$465,922,402 and \$264,776,353, respectively, which are discretely presented component units and are not broken out separately as they participate in the investment pool.

Interest Rate Risk

Interest rate risk is defined as the risk that changes in interest rates will adversely affect the fair value of an investment. Through its investment policy, the County manages its exposure to fair value losses arising from increasing interest rates by limiting the average weighted duration of its investment pool portfolio to less than 2.5 years. Duration is a measure of the present value of a fixed income's cash flows and is used to estimate the sensitivity of a security's price to interest rate changes.

Interest Rate Sensitivity

At June 30, 2011, the County invested in the following types of securities that have a higher sensitivity to interest rates:

Callable securities are directly affected by the movement of interest rates. Callable securities allow the issuer to redeem or call a security before maturity, one time or generally on coupon dates.

Step-up/step-down securities have fixed rate coupons for a specific time interval that will step-up or step-down a predetermined number of basis points at scheduled coupon or other reset dates. These securities are callable one time or on their coupon dates.

Fixed-to-floating rate notes have fixed rate coupons for a specified period of time then a variable rate coupon for the remaining life of the security. The variable rate is generally based on three month LIBOR plus or minus a specified number of basis points. In some cases, interest rate caps are reset higher annually. These securities are callable generally on their coupon dates.

III. DETAILED NOTES – ALL FUNDS (Continued)

1. CASH AND INVESTMENTS (Continued)

Credit Risk

Credit risk is defined as the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The County's investment policy applies the prudent-person rule: "In investing the County's monies, there shall be exercised the judgment and care under the circumstances then prevailing which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived." The County's investments were rated by Standard & Poor's and Moody's Investors Service, respectively, as follows: U.S. Treasury Notes, AAA/Aaa; U.S. Treasury Bills, A-1/P-1; bonds of U.S. Federal agencies, AAA/Aaa; discount notes of U.S. Federal agencies, A-1/P-1; money market funds, AAA/Aaa; commercial paper issued by corporations organized and operating in the United States or by depository institutions licensed by the United States or any state and operating in the United States, A-1/P-1; negotiable certificates of deposit issued by commercial banks, insured credit unions or savings and loan associations, A-1/P-1; collateralized mortgage obligations, AAA/Aaa; collateralized investment agreements issued by insurance companies rated AA/Aa2 or its equivalent or higher, or issued by entities rated A/A2 or its equivalent or higher; asset-backed securities, AAA/Aaa; corporate notes issued by corporations organized and operating in the United States which have a rating of A or its equivalent or higher. The County's investments in non-negotiable certificates of deposit are FDIC insured and do not exceed \$250,000 per insured institution.

Concentration of Credit Risk

Concentration of credit risk is defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer. The County's investment policy limits the amount that may be invested in obligations of any one issuer, except direct obligations of the U.S. government or federal agencies, to no more than five percent of the Clark County investment pool.

At June 30, 2011, the following investments exceeded five percent of the total cash and investments for all entities combined.

Federal Farm Credit Banks (FFCB)	8.32%
Federal Home Loan Banks (FHLB)	14.46
Federal Home Loan Mortgage Corporation (FHLMC)	26.05
Federal National Mortgage Association (FNMA)	18.14

Securities Lending

Nevada Revised Statute (NRS) 355.178 authorizes the County to participate in securities lending transactions, where the County's securities are loaned to brokers/dealers and other entities with a simultaneous agreement to return the collateral for the same securities in the future. The County's securities lending agent administers the securities lending program and receives cash or other securities equal to at least 102 percent of the fair value of the loaned securities plus accrued interest as collateral for securities of the type on loan at year end. The collateral for the loans is maintained at 102 percent, and the value of the securities borrowed is determined on a daily basis.

At year end, the County had no credit exposure to borrowers because the amount the County held as collateral exceeded the amounts the borrowers owed to the County. The contract with the securities lending agent requires it to indemnify the County for all losses relating to securities lending transactions.

The County does not have the ability to pledge or sell collateral securities without a borrower default. There were no borrower defaults during the period nor were there any prior period losses to recover.

III. DETAILED NOTES – ALL FUNDS (Continued)

1. CASH AND INVESTMENTS (Continued)

Securities Lending (Continued)

State statutes place no restrictions on the amount of securities that can be loaned. Either the County or the borrower can terminate all open securities loans on demand. Cash collateral is invested in accordance with the investment guidelines stated in NRS 355.170. The County's securities lending guidelines require that the aggregate reinvestment of the cash collateral may not be mismatched to the aggregate securities loaned by more than fifteen business days. In regard to this calculation, the final maturity or interest rate reset date is utilized. Such amounts are included in loaned securities in investments and liabilities.

The fair value of the securities on loan at June 30, 2011, was \$514,240,879. At June 30, 2011, the County had received cash collateral with a value totaling \$524,793,243. The total collateral received was in excess of the fair value of the investments held by brokers/dealers under the securities lending agreement.

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of the failure of the counterparty to a transaction, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Consistent with the County's securities lending policy, \$502,566,468 was held by the counterparty that was acting as the County's agent in securities lending transactions, and consisted of U.S. corporate obligations, certificates of deposit, commercial paper, and money market funds.

GASB 31

GASB Statement No. 31 requires the County to adjust the carrying amount of its investment portfolio to reflect the change in fair or market values. Interest revenue is increased or decreased in relation to this adjustment of unrealized gain or loss. Net interest income in the funds reflects this positive or negative market value adjustment.

2. PROPERTY TAXES

Taxes on real property are levied on July 1 of each year and a lien is also placed on the property on July 1. The taxes are due on the third Monday in August, but can be paid in four installments on or before the third Monday in August, first Monday in October, January, and March. In the event of nonpayment, the County Treasurer is authorized to hold the property for two years, subject to redemption upon payment of taxes, penalties, and costs, together with interest at the rate of 10 percent per year from the date the taxes were due until paid. If delinquent taxes are not paid within the two-year redemption period, the County Treasurer may sell the property to satisfy the tax lien.

The Nevada legislature enacted provisions whereby the combined overlapping tax rate was limited to \$3.64 per \$100 of assessed valuation. The Nevada legislature also passed a property tax abatement law that generally caps increases in property taxes received from any owner-occupied residential property to three percent per year, and eight percent per year for all other property.

Litigation Accrual and Arbitrage Liability

The County is a defendant in various cases (see Note 10). An estimated liability of \$2,500,000 for litigation losses is recorded in the governmental activities column.

When a state or local government earns interest at a higher rate of return on tax-exempt bond issues than it pays on the debt, a liability for the spread is payable to the federal government. This interest spread, known as “rebtable arbitrage,” is due five years after issuing the bonds. Excess earnings of one year may be offset by lesser earnings in subsequent years.

The following summarizes activity for the year:

Changes in Long-Term Liabilities (Continued)

Unamortized premium/discount on business-type activity revenue bonds amounted to \$6,924,277. There are a number of limitations and restrictions contained in the various bond indentures. Management believes the County is in compliance with all significant limitations and restrictions.

Current Year Refunded and Defeased Bond Issues

On November 4, 2010, the County issued \$204 million of Non-AMT Private Activity Passenger Facility Charge Refunding Revenue Bonds. \$104.2 million at a fixed rate that ranges between 2.00 and 5.00 percent and \$100 million at a weekly variable rate. The yield interest rate is .54 to 2.63 percent. The bonds were issued for the purpose of refunding the 2005A PFC bonds and to pay certain costs of issuance thereof. The bonds were issued at a premium of \$9.8 million and resulted in a loss of \$10.8 million. This refunding resulted in a net present value savings of \$2.4 million. The F1 series matures in 2017 and the F2 series matures in 2022. The remarketing agent on the series F2 Bonds is Citigroup Global Markets, Inc. and the letter of credit provider is Union Bank, N.A.

On May 26, 2011, the Water District issued Series 2011 A \$58,110,000 par value general obligation taxable bonds, additionally secured by pledged revenue of the SNWA, for a true interest cost of 4.879% (rounded). Proceeds of the 2011A Bonds were used to advance refund \$51,930,000 of the February 2008 Water District general obligations bonds (Series 2008B). The redemption price of the partially refunded 2008B bonds is 100% and the average coupon rate 5.00%. Because the liability for bonds additionally secured by pledged revenue of the SNWA are offset by an SNWA receivable, issuing the Series 2011A bonds and partially refunding the Series 2008B bonds had no effect on the Water District operations or financial position.

Discretely Presented Component Units

Flood Control District

In July 2010, the Flood Control District issued \$29,425,000 in General Obligation Flood Control Refunding Bonds Series 2010 for the purpose of extinguishing \$32,740,000 in General Obligation Flood Control Bonds Series 1998. From November 2010 through November 2018, the refunding bonds will achieve a cash flow savings of \$3,619,700 and present value economic savings of \$2,946,491 or 6.7% of the original debt service requirements of the General Obligation Flood Control Bonds Series 1998.

Prior Year Defeasance of Debt

In prior years, the County defeased certain general obligation and revenue bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the County's financial statements. At June 30, 2011, the following were the remaining balances of the defeased bond issues:

Special Assessment Bonds:	
Series of December 1, 1992	\$ 1,395,000
Series of October 1, 1995	4,820,000
Series of April 15, 1994	450,000

Conduit Debt Obligations

The County has issued approximately \$1,726,245,000 in economic development revenue bonds since 1990. The bonds have been issued for a number of economic development projects, including: utility projects, healthcare projects, and education projects. The bonds are paid solely from the revenues derived from the respective projects, therefore, these bonds are not liabilities of the County under any condition, and they are not included as a liability of the County.

(a) Interest Rate Swaps

The intention of the Department of Aviation's swap portfolio was to change variable interest rate bonds to synthetically fixed rate bonds. As a means to lower its borrowing costs when compared against fixed-rate bonds at the time of issuance, the Department of Aviation executed several floating-to-fixed swaps in connection with its issuance of variable rate bonds. The Department of Aviation also executed forward starting swaps to lock in attractive synthetically fixed rates for future variable rate bonds. Some of the Department of Aviation's swaps are structured with step-down coupons in order to shift savings from the early years to the later years of the swap.

As summarized in the tables below, the Department of Aviation has 22 outstanding swap transactions as of June 30, 2011 with initial notional amounts totaling \$3,137,170,000. The outstanding notional amount as of June 30, 2011, was \$2,455,452,191, including \$1,250,540,000 in Floating-to-Fixed swaps; \$275,000,000 of Forward Floating-to-Fixed swaps; and \$929,912,191 in Basis swaps. The current mark-to-market or fair value of each derivative instrument is detailed below and the total valuation of all outstanding swap agreements as of June 30, 2011 is (\$82,622,049). The mark-to-market or fair value for each swap is estimated using the zero-coupon method. Under this method, future payments are calculated assuming that the current forward rates of the appropriate yield curve, Securities Industry and Financial Markets Association (SIFMA), formerly known as BMA or London Interbank Offered Rate (LIBOR), correctly anticipate future spot rates. These payments are then discounted using the spot rates implied by the current LIBOR yield curve for hypothetical zero-coupon rate bonds due on the date of each future net settlement on the swaps.

All of the swaps entered into by the Department of Aviation comply with the County's swap policy. Each swap is written under standard International Swaps and Derivatives Association (ISDA) guidelines and documentation. This includes standard provisions for termination events, such as failure to pay or bankruptcy. The Department of Aviation retains the right to terminate any swap agreement at the market value prior to maturity. The Department of Aviation has termination risk under the contract particularly if an Additional Termination Event (ATE) was to occur. An ATE occurs if either the credit rating of the bonds associated with a particular swap agreement and the rating of the swap insurer falls below a pre-defined credit rating threshold, or the credit rating of the swap counterparty falls below a threshold as defined in the swap agreement.

With regard to credit risk, the potential exposure is mitigated through the use of an ISDA Credit Support Annex (CSA). Under the terms of the CSA, each swap counterparty is required to post collateral to a third party when their credit ratings fall below the trigger level as defined in each swap agreement. As long as the Department of Aviation retains insurance and its credit rating stays above the established threshold, the Department of Aviation is not required to post any collateral. This protects the Department of Aviation from credit risks inherent in the swap agreements.

*Note - On April 6, 2010 the Department terminated the "on market" (at-market coupon) portion of its floating-to-fixed swaps #03, #05, #10A, #11, and #13. To fund the terminations the Department fully terminated the "off-market" (step-coupon) portion of swap #11 and partially terminated \$162.2M of \$229.9M notional of the "off-market" portion of Swap #03. The agreements related to Swaps #03, #05, #10A, and #13 were amended and restated and the new terms of the swap agreements are presented in the table above as Swaps #15, #16, #17, and #18, respectively.

Derivative Instruments (Continued)

As summarized in the previous section, the Department of Aviation has entered into various interest rate swap agreements to hedge financial risks associated with the cost of borrowing and cash flows associated with the Department of Aviation's variable interest rate debt.

In accordance with the provisions of GASB Statement No. 53, Accounting and Financial Reporting for Derivative Instruments, the Department of Aviation is required to report the fair value of all derivative instruments on the statement of net assets. In addition, GASB Statement No. 53 requires that all derivatives be sorted into two basic types; (1) hedging derivative instruments and (2) investment derivative instruments. Hedging derivatives instruments significantly reduce an identified financial risk by substantially offsetting changes in cash flows or fair values of an associated hedgeable item. Investment derivative instruments are entered into primarily for income or profit purposes or they are derivative instruments that do not meet the criteria of an effective hedging derivative instrument. Changes in fair value of hedging derivative instruments are deferred on the statement of net assets; and changes in fair value of investing derivative instruments are recognized as gains or losses on the statement of Revenue, Expenses, and Changes in Net Assets.

On November 4, 2010 the Department of Aviation refunded the outstanding principal of its Series 2005 A-1 and A-2 PFC bonds with the Series 2010 F-1 and F-2 PFC bonds. At the time of refunding, swap #12B served as a hedge to the cash flows associated with \$100,000,000 in principal of the Series 2005A PFC Bonds.

Upon refunding, swap #12B was re-associated with the cash flows of the \$100,000,000 of outstanding principal of the Series 2010 F-2 PFC Bonds and the fair value of swap #12B was revalued using the market rates at the time of the refunding, this created a deferred loss on refunding and imputed borrowing of \$12,388,710. In addition, cash flows associated with \$100,000,000 in outstanding notional for swap #12B exceeded the cash flows associated with the outstanding principal of the Series 2010 F-2 PFC bonds, therefore a portion of the fair value of swap #12B is classified as a hedging derivative and the fair value of the excess portion is classified as an investment derivative.

For the fiscal year ended June 30, 2011, \$1,182,879 of Swap 12B was reclassified from hedging derivative to investing derivative. No other swaps were reclassified for the fiscal year ended June 30, 2011.

(b) Hedging Derivative Instruments:

On June 30, 2011, the Department of Aviation had nine (9) outstanding floating-to-fixed interest rate swap agreements considered to be hedging derivative instruments in accordance with the provisions of GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*. Below is a summary of the objectives, terms, values, and risks associated with the Department of Aviation's hedging derivative instruments.

Objective:

As a means to lower its borrowing costs when compared against fixed-rate bonds at the time of issuance, the Department of Aviation executed floating-to-fixed interest rate swaps in connection with its issuance of Variable Rate Bonds. The intention of these swaps was to change the Department of Aviation's variable interest rate on the bonds to synthetic fixed rates. As of June 30, 2011 the Department of Aviation had six (6) outstanding swaps that were structured with step-down coupons in order to shift savings from the early years to the later years of the swap.

Forward starting swap agreements:

On January 3, 2006, the Department of Aviation entered into five (5) swap agreements (Swaps #7A, #7B, #12A, #12B, and #13) to hedge future variable rate debt, as a means to lower its borrowing costs and provide favorable synthetically fixed rates for the financing of the Terminal 3 Project and other related projects. Swaps #7A and 7B# with notional amounts totaling \$300,000,000 became effective on July 1, 2008 and hedge the 2008 series A and B variable rate bonds. Swaps #12A and #12B with notional amounts totaling \$550,000,000 became effective July 1, 2009 and swap

#13 with a notional amount totaling \$150,000,000 was scheduled to become effective July 1, 2010. Due to the attractive market rates for fixed rate bonds together with the favorable provisions of the American Recovery and Reinvestment Act of 2010, the Department of Aviation chose to refinance its outstanding bond anticipation notes and issue fixed rate bonds to complete financing of the Terminal 3 Project. As a result, the planned \$550,000,000 of 2009 series A and B variable rate bonds were not issued on July 1, 2009.

In addition, on April 6, 2010, the Department of Aviation terminated \$543,300,000 in notional amounts of its outstanding floating to fixed interest rate swaps (Swaps #3, #5, #10A, and #11) and the \$150,000,000 in notional amounts of the July 1, 2010 forward starting swap #13 to better match its outstanding notional of floating-to-fixed interest rate swaps to the cash flows associated with its outstanding variable rate bonds.

On April 17, 2007, the Department of Aviation entered into two (2) additional forward starting swap agreements (swaps #14A and #14B) with notional amounts totaling \$275,000,000 which are scheduled to become effective July 1, 2011.

Terms, notional amounts, and fair values:

The terms, notional amounts, and fair value of the Department of Aviation's hedging derivatives at June 30, 2011 are included in the table below. Notional amounts of the swap agreements match the principal portions of the associated debt and contain reductions in the notional amounts that are expected to follow the reductions in the associated outstanding variable interest rate debt except as discussed in the section on rollover risk.

Due to an increase in interest rates during Fiscal Year 2011, two of the Department of Aviation's hedging derivatives had positive fair values as of June 30, 2011. The fair values are estimated using the zero-coupon method. Under this method, future payments are calculated assuming that the current forward rates of the appropriate yield curve, Securities Industry and Financial Markets Association (SIFMA), formerly known as BMA or London Interbank Offered Rate (LIBOR), correctly anticipate future spot rates. These payments are then discounted using the spot rates implied by the current LIBOR yield curve for hypothetical zero-coupon rate bonds due on the date of each future net settlement on the swaps.

Credit Risk:

As of June 30, 2011, the Department of Aviation was exposed to credit risk on two of its outstanding hedging derivative swaps because these swaps all had positive fair values. The Department of Aviation is exposed to credit risk in the amount of the derivatives' fair values. As described earlier, a CSA is in place to provide collateral to protect the value of the swaps under specific circumstances.

The counterparty credit ratings for the Department of Aviation's hedging derivative instruments at June 30, 2011 are included in the table below.

6. LONG-TERM DEBT (Continued)

Derivative Instruments (Continued)

Basis and Interest Rate Risk:

The \$66,600,000 notional floating-to-fixed swap (Swap #01) is not subject to basis or interest rate risk as the variable amount received from the swap counterparty matches the payment due on the 1993A Non-AMT bonds. All of the remaining hedging derivative swaps are subject to basis and interest rate risk should the relationship between LIBOR and SIFMA rates converge. If a change occurs that results in the rates moving to convergence, the expected cost savings and expected cash flows of the swaps may not be realized.

Tax Risk:

The Department of Aviation is exposed to tax risk if a permanent mismatch (shortfall) occurs between the floating rate received on the swap and the variable rate paid on the underlying variable rate bonds due to tax law changes such that the federal or state tax exemption of municipal debt is eliminated or its value reduced.

Termination Risk:

The Department of Aviation is exposed to termination risk if either the credit rating of the bonds associated with the swap, or the credit rating of the swap counterparty falls below the threshold defined in the swap agreement, then an Additional Termination Event (ATE) may occur. At the time of the ATE, if the swap has a negative value, the Department of Aviation would be liable to the counterparty for a payment equal to the swap's fair value.

Rollover Risk:

The amounts of swaps #01, #07A, #07B, #10B, #10C, #12A, and #12B match the principal portions of the associated debt and contain reductions in the notional amounts that are expected to follow the reduction in the associated outstanding variable rate debt.

On November 4, 2010 the Department of Aviation refunded the outstanding principal of its Series 2005 A-1 and A-2 PFC bonds with the Series 2010 F-1 and F-2 PFC bonds. Upon refunding, cash flows associated with \$100,000,000 in outstanding notional for swap #12B exceeded the cash flows associated with the outstanding principal of the Series 2010 F-2 PFC bonds, therefore a portion of the fair value of swap #12B is classified as a hedging derivative and the fair value of the excess portion is classified as an investment derivative.

On April 6, 2010, the swaps that originally served as hedges to \$229,900,000 of the outstanding 2005 series A-1 and A-2 bonds (swap #3); \$50,850,000 of the outstanding 2008 series C bonds (swap #5); \$139,735,000 of the outstanding 2008 series D-2 bonds (swap #10A); and \$122,865,000 of the outstanding 2008 series D-3 bonds (swap #11) were terminated, leaving cash flows from these variable rate bonds to be associated with the outstanding swaps #12A and #12B.

(c) Investing Derivative Instruments:

On June 30, 2011, the Department of Aviation has outstanding 13 interest rate swap agreements considered to be investing derivative instruments in accordance with the provisions of GASB Statement No. 53, Accounting and Financial Reporting for Derivative Instruments.

The Department of Aviation is not exposed to credit risk on the remaining interest rate swap with a negative fair value. Should interest rates change and the fair values of the swaps become positive the Department of Aviation would then be exposed to credit risk in the amount of the derivatives' fair values. As described earlier, a CSA is in place to provide collateral to protect the value of the swap under specific circumstances.

Loans Payable

In January 2008, the RTC established a commercial paper program allowing for the issuance of \$200 million in tax-exempt commercial paper notes (Series 2008A and Series 2008B) for the streets and highways improvements projects incorporated in Clark County's Master Transportation Plan. As of June 30, 2011, this program has been closed. Expiration date is January 23, 2015; however, the line of credit may be extended from time to time. Interest rates are variable and averaged 0.3 percent at June 30, 2011.

Commercial Paper Notes Payable

In February 2008, the RTC established a commercial paper program for the streets and highways improvements projects incorporated in Clark County's Master Transportation Plan. This program is authorized for the issuance of up to \$200 million in tax-exempt commercial paper notes to be paid from pledged motor vehicle fuel tax revenues and additionally secured by an irrevocable letter of credit dated March 5, 2008 (Series 2008A and Series 2008B). As of June 30, 2011, \$16 million is outstanding. The commercial paper notes may have a maturity date from 1 to 270 days after their issuance; however, no note may mature after the earlier of March 4, 2018, or five days prior to the line of credit expiration date, currently March 13, 2013. Interest rates are variable and averaged 0.3 percent at June 30, 2011.

As of June 30, 2011, the total amount of commercial paper approved for sale was \$100 million, which was divided equally into two separate issues, Series 2008A and Series 2008B with an aggregate of \$16 million issued and outstanding.

Pledged Revenues

Motor vehicle fuel tax revenue bonds issued for RTC purposes are collateralized by a maximum of nine cents per gallon motor vehicle fuel tax levied by the County, except that portion required to be allocated as direct distributions for those political subdivisions not included in the “Las Vegas Valley Area Major Street and Highway Plan.”

The bonds are additionally collateralized by the County’s share of the three cents per gallon tax levied by the State pursuant to NRS 365.180 and 365.190 and accounted for in other County funds.

The net pledged revenues for the year ended June 30, 2011, were as follows:

Pledged revenues (net of administrative expenditures)	
State motor vehicle fuel tax	\$ 19,736,746
County motor vehicle fuel tax	<u>65,464,850</u>
	<u>85,201,596</u>
Direct distributions allocated for certain political subdivisions not included in the Las Vegas Valley Area Major Street and Highway Plan	<u>(2,148,177)</u>
Net pledged revenues	<u>\$ 83,053,419</u>

Sales and excise tax revenue bonds issued for RTC purposes are collateralized by 1/8 percent sales and excise tax and a 1 cent jet aviation fuel tax in Clark County.

The net pledged revenues for the year ended June 30, 2011, were as follows:

Pledged revenues:	
Sales and excise tax	\$ 35,444,544
Jet aviation fuel tax	<u>3,658,928</u>
Total pledged revenues	<u>\$ 39,103,472</u>

Arbitrage Rebate and Debt Covenant Requirements

The federal Tax Reform Act of 1986 imposes a rebate requirement with respect to some bonds issued by the County for the RTC. Under this act, an amount may be required to be rebated to the United States Treasury (called “arbitrage”) for interest on the bonds to qualify for exclusion from gross income for federal income tax purposes. Rebatable arbitrage is computed as of each installment computation date, and as of the most recent such date the RTC’s management believes that there is no rebatable arbitrage amount due. Future calculations might result in adjustments to this determination.

8. NET ASSETS AND FUND BALANCES

Primary Government

Net Assets - Government-wide Financial Statements:

The government-wide Statement of Net Assets utilizes a net asset presentation. Net assets are categorized as invested in capital assets, net of related debt, restricted and unrestricted. Related debt is the debt outstanding that relates to the acquisition, construction, or improvement of capital assets.

Restricted assets are assets which have externally imposed (statutory, bond covenant, contract, or grantor) limitations on their use. Restricted assets are classified either by function, debt service, capital projects, or claims. Assets restricted by function relate to net assets of government and enterprise funds whose use is legally limited by outside parties for a specific purpose. The restriction for debt service represents assets legally restricted by statute or bond covenants for future debt service requirements of both principal and interest. The amount restricted for capital projects consists of unspent grants, donations, and debt proceeds with third party restriction for use on specific projects or programs. Net assets restricted for claims represent the amount legally required to be held for payment for future claims in the self-insurance funds. The government-wide statement of net assets reports \$1,393,943,381 of restricted net assets, all of which is externally imposed.

Unrestricted net assets represent financial resources of the County that do not have externally imposed limitations on their use.

Fund Balances - Fund Financial Statements:

Government Funds

Government fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the County is bound to observe constraints imposed on the use of the resources of the fund. Fund balance classifications by County function consist of the following:

9. RISK MANAGEMENT

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Over the past three years, settlements have not exceeded insurance coverage. The County maintains the following types of risk exposures:

Self-Funded Group Insurance and Group Insurance Reserve

The County has established self-insurance funds for insuring medical benefits provided to County employees and covered dependents. An independent claims administrator performs all claims-handling procedures.

Incurred but not reported claims have been accrued as a liability based upon a variety of actuarial and statistical techniques.

Clark County Workers' Compensation

The County has established a fund for self-insurance related to workers' compensation claims. Self-insurance is in effect up to an individual stop loss amount of \$500,000 per occurrence in the first year, \$275,000 in the second year and \$175,000 per year thereafter. Coverage from private insurers is maintained for losses in excess of the claim stop loss amount up to \$100,000,000. Incurred but not reported claims have been accrued as a liability based upon a variety of actuarial and statistical techniques.

10. COMMITMENTS AND CONTINGENCIES

Encumbrances

The County utilizes encumbrance accounting in its government funds. Encumbrances are recognized as a valid and proper charge against a budget appropriation in the year in which a purchase order, contract, or other commitment is issued. In general, unencumbered appropriations lapse at year end. Open encumbrances at fiscal year end are included in restricted, committed, or assigned fund balance, as appropriate. The following schedule outlines significant encumbrances included in governmental fund balances:

<u>Major Funds</u>	<u>Restricted Fund Balance</u>	<u>Committed Fund Balance</u>	<u>Assigned Fund Balance</u>
General Fund	\$ -	\$ -	\$ -
Las Vegas Metropolitan Police Department	-	5,371,045	-
<u>Nonmajor Funds</u>			
Aggregate nonmajor funds	<u>97,435,130</u>	<u>57,741,238</u>	<u>2,737,000</u>
	<u>\$ 97,435,130</u>	<u>\$ 63,112,283</u>	<u>\$ 2,737,000</u>

LVCVA Bonds

In addition to the County general obligation bonds, the County is contingently liable on the Las Vegas Convention and Visitors Authority (LVCVA) general obligation bonds, Series May 31, 2007, August 19, 2008, January 26, 2010, and December 8, 2011, in the amounts of \$32,185,000, \$25,555,000, 124,290,000 and \$173,905,000 respectively. Although the County is contingently liable for the general obligation bonds of the LVCVA, in the event of a default by the LVCVA, it is anticipated that additional ad valorem taxes would be levied to retire the bonds. Therefore, the County's exposure to this contingent liability is remote.

Grant Entitlement

The County is a participant in a number of federal and state-assisted programs. These programs are subject to compliance audits by the grantors. The audits of these programs for fiscal year 2011 and certain earlier years have not yet been completed. Accordingly, the County's compliance with applicable program requirements is not completely established. The amount, if any, of expenditures that may be disallowed by the grantors cannot be determined at this time. The County believes it has adequately provided for potential liabilities, if any, which may arise from the grantors' audits.

Medicare and Medicaid Reimbursements

UMC's Medicare and Medicaid cost reports for certain prior years are in various stages of review by third-party intermediaries and have not been settled as a result of certain unresolved reimbursement issues. The County believes it has adequately provided for any potential liabilities that may arise from the intermediaries' audits.

Thereafter	<u>3,550,355</u>
Total	<u>\$ 30,866,960</u>

The rental expense of UMC for property and equipment was approximately \$9,799,279 for the year ended June 30, 2011.

Rentals and Operating Leases

The Department of Aviation derives a substantial portion of its revenues from fees and charges to air carriers and concessionaires. Charges to air carriers are generated from terminal building rentals, gate use fees, and landing fees in accordance with the Lease, or provisions of the County's annual ordinance. The Department of Aviation leases land, building, and terminal space to concessionaires under operating leases that expire at various times through 2048. Under the terms of the agreements, concession fees are based principally on a percentage of the concessionaires' gross sales or a stated minimum annual guarantee, whichever is greater; and land and building rents that are based on square footage rates. The Department of Aviation received \$85,087,275 in FY 2011 and \$69,035,918 in FY 2010 for contingent rental payments in excess of stated annual minimum guarantees.

Litigation

There are various outstanding claims against the County for which a probability of loss exists with a cumulative amount of approximately \$2,500,000. An accrual for litigation losses has been provided in the governmental activities column.

Other cases, some of which involve alleged civil rights violations, have been filed against the County. These cases are in the discovery stage and no estimate of the probability or extent of possible losses can be determined at this time.

11. JOINT VENTURES

Southern Nevada Water Authority

The Water District, a component unit (see Note 1), has a joint venture with the Southern Nevada Water Authority (“SNWA”). The SNWA is a political subdivision of the State of Nevada, created on July 25, 1991, by a cooperative agreement between the Water District, the Big Bend Water District, the City of Boulder City, the City of Henderson, the City of Las Vegas, the City of North Las Vegas, and the Reclamation District (the “Members”). SNWA was created to secure additional supplies of water and effectively manage existing supplies of water on a regional basis through the cooperative action of the Members.

The SNWA is governed by a seven-member board of directors composed of one director from each member agency. The Water District is the operating agent for the SNWA; the General Manager of the Water District is the General Manager of the SNWA; and the Director of Finance of the Water District is the Treasurer of the SNWA.

The SNWA has the power to periodically assess the Members directly for operating and capital costs and for the satisfaction of any liabilities imposed against the SNWA. The Water District and other members do not have an expressed claim to the resources of the SNWA except that, upon termination of the joint venture, any assets remaining after payment of all obligations shall be returned to the contributing member. For this reason, the Water District records capital contributions as an operating expense, or as noted below, in some instances as capital projects.

In 1995, the SNWA approved agreements for the repayment of the cost of an additional expansion of the Southern Nevada Water System (SNWS). The agreements required contributions from purveyor members, including the Water District, benefiting from the expansion. In 1996, the Water District approved the collection of regional connection charges, regional commodity charges, and regional reliability surcharges to fund these contributions. The Water District records these charges as operating revenues, and contributions to the SNWA as operating expenses, except for District funded capital projects. On a Water District funded capital project, no regional revenue is collected, but a contribution to SNWA is still required, and it is charged to the capital project instead of operating expenses. The Water District does not act as a collecting agency for the SNWA. If the regional revenue were not collected, the Water District would still have the liability to the SNWA.

11. JOINT VENTURES (Continued)

Southern Nevada Water Authority (Continued)

The Water District operates the SNWS, a regional system consisting of a water treatment plant and pumping and distribution facilities that supply water to the water purveyors in Southern Nevada for the SNWA.

During fiscal year 2011, the SNWA reimbursed the Water District \$105.9 million (excluding funds advanced for unbilled expenditures – see next paragraph) for expenditures made by the Water District on behalf of the SNWA. For these and other costs of SNWA, including debt service, SNWA billed the Water District for its share based on water delivered at a flat rate per acre-foot (wholesale delivery charge). The wholesale delivery charge is recorded as a component of purchased water expense.

The contributions for fiscal year 2011 for the SNWS expansion totaled \$34,671,234, and in fiscal year 2010 totaled \$15,702,502. Additionally, the Water District contributed \$524,674 in fiscal year 2011 and in fiscal year 2010 to SNWA to help fund a groundwater management program in the Las Vegas Valley. Total contributions to the SNWA for the fiscal year ended June 30, 2011, were \$35,195,908 and in fiscal year 2010 were \$16,227,176, and were recorded as SNWA expense on the Water District's financial statements.

Clean Water Coalition

The Reclamation District, a component unit (see Note 1) has a joint venture with the Clean Water Coalition (CWC). In December 2009, the Systems Conveyance and Operations Program (SCOP) project was suspended until future assessments of the necessity of the SCOP project could be completed. As of February 2010, the Reclamation District's Board of Trustees approved the termination of the CWC's portion of the Reclamation District's SDA (connection) fees, and on January 25, 2011 the CWC Board terminated the collection of the CWC quarterly user fees from the member agencies effective as of October 1, 2010. On October 1, 2010 the Reclamation District reduced their expenses by \$2,740,307 when the three unpaid quarterly invoices from the CWC were reversed. The Reclamation District was not obligated to repay these funds to the CWC or its customers; therefore on July 1, 2011, the Reclamation District reduced its customer's annual sewer service bill which in turn reduced the Reclamation District's sewer service revenue by \$2,748,402.

On May 17, 2011, the Reclamation District's Board of Trustees approved the reduction of the Reclamation District's previously approved sewer service rates to reflect the termination of CWC user fees. The annual sewer service rate effective July 1, 2011 will be reduced by \$6.81 per ERU for a total of \$4,122,808. The annual sewer service rate effective July 1, 2012 will be reduced by \$6.79 per ERU for a total of \$4,110,700.

On August 30, 2011 the CWC Board approved the termination of the SCOP project and the distribution of unspent CWC funds, in the amount of \$62 million, to the member agencies in accordance with their proportionate share of contributions. The amount returned to the Reclamation District on September 23, 2011 was \$31,830,800. On September 6, 2011, the Reclamation District's Board approved the distribution of \$19,957,911 to the Reclamation

District's rate payers through sewer service credits and SDA refunds, and \$11,872,888 will be returned to the Reclamation District's reserve cash account. The CWC's Board has not terminated the CWC as an agency.

As stated above, the Reclamation District had invested in the capacity rights of the CWC joint venture SCOP project. These capacity rights were considered an intangible asset with a definite useful life and with a value in the amount of \$32,800,740. As such, the asset would have been amortized over the useful life of the project once the project was put into service. Since the SCOP project was terminated, the investment amount was reduced by the anticipated refund from the CWC in the amount of \$11,872,888. The investment balance of \$20,927,853 was then expensed as a loss on the intangible asset. The anticipated refund of \$19,957,911 from CWC was listed on the Reclamation District's financials as a liability, as the amount will be refunded directly to the Reclamation District rate payers or issued as a credit against rate payers annual sewer service bills.

Separate audited financial statements for the CWC are prepared annually and can be obtained by contacting the Reclamation District's Financial Services Manager.

12. RETIREMENT SYSTEM

Clark County, Nevada employees, with the exception of those of the Water District enterprise fund, are covered by the State of Nevada Public Employees' Retirement System (the "System"). The System was established on July 1, 1948, by the Legislature and is governed by the Public Employees' Retirement Board whose seven members are appointed by the Governor. All public employees who meet certain eligibility requirements participate in the System, which is a cost sharing multiple-employer defined benefit plan. Clark County, Nevada does not exercise any control over the System. Nevada Revised Statute 286.110 states that: "Respective participating public employers are not liable for any obligation of the System."

Benefits, as required by statute, are determined by the number of years of accredited service at the time of retirement and the member's highest average compensation in any 36 consecutive months. Benefit payments to which participants may be entitled under the System include pension benefits, disability benefits, and death benefits.

Monthly benefit allowances for regular members and police and firemen are computed at 2.5 percent for service credits earned prior to July 1, 2001, and 2.67 percent for service credit earned July 1, 2001, and thereafter, of average compensation (36 consecutive months of highest compensation) for each accredited year of service prior to retirement up to a maximum of 90 percent of the average compensation for employees who entered the System prior to July 1, 1985, and 75 percent for those entering after that date. The System offers several alternatives to the unmodified service retirement allowance which, in general, allows the retired employee to accept a reduced service retirement allowance payable monthly during the employee's life and various optional monthly payments to a named beneficiary after the employee's death. Regular members are eligible for full retirement benefits at age 65 with 5 years of service, at age 60 with 10 years of service, or at any age with 30 years of service. Police and firemen are eligible for full retirement benefits with 5 years of service at age 65, with 10 years of service at age 55, at age 50 with 20 years of service, or at any age with 25 years of service.

Contribution rates are established by NRS 286.410. The statute provides for increases in odd-numbered years to an actuarially determined rate sufficient to amortize the unfunded liability of the system to zero over a 30-year amortization period. The County is obligated to contribute all amounts due under the System. The contribution

rate for regular members, based on covered payroll, was 21.5 percent for the years ended June 30, 2011 and 2010, and 20.5 percent for June 30, 2009. The contribution rate for police and firemen was 37.0 percent and for the years ended June 30, 2011 and 2010, and 33.5 percent for the year ended June 30, 2009.

The County's contributions to the plan for the years ended June 30, 2011, 2010, and 2009 were \$295,183,959, \$300,559,749, and \$279,280,514, respectively, equal to the required contributions for each year.

An annual report containing financial statements and required information for the System may be obtained by writing to PERS, 693 W. Nye Lane, Carson City, Nevada 89703-1599, or by calling (775) 687-4200.

Las Vegas Valley Water District Retirement Plan

The Water District enterprise fund has provided for employee retirement by participation in Social Security and adoption of a supplementary defined benefit pension plan covering substantially all employees.

A. Plan Description

The Water District contributes to the Las Vegas Valley Water District Pension Plan (the "Plan"), a single-employer defined benefit pension trust fund established by the Water District to provide pension benefits solely for the employees of the Water District. The Board of Trustees of the Plan, composed of the Water District's board of directors, has the authority to establish and amend the benefit provisions of the Plan and the contribution requirements of the Water District and the employees. Water District employees are not required to contribute to the Plan. Water District employees may, however, under certain conditions, purchase additional years of service for eligibility and increased benefits. For the year ended, June 30, 2011, the contributions for this purpose were \$58,261; for the year ended June 30, 2010, the contributions were \$172,445.

The Plan was amended effective February 15, 2005, to provide the following: (1) Increase the annual service credit of 2 percent to 2.17 percent for years of service after July 1, 2001. (Service credit is the accumulation of pension plan years while an employee was in paid status at the Water District.) (2) Change the benefit formula to increase the calculation of highest average pay by approximately 10 percent as currently prescribed in the Nevada Revised Statutes. (3) Add shift differential and standby pay to the total compensation counted toward the pension benefit.

Other than cost of living adjustments, the Plan does not provide ad hoc post-retirement benefit increases nor does it administer post-employment healthcare plans. The Plan does not issue a stand-alone financial report.

All Water District employees are eligible to participate in the Plan after attaining age 20 and completing six months of employment. Subject to a maximum pension benefit, normally 60 percent of average monthly compensation, Water District employees who retire at age 65 are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 2 percent of their average monthly compensation multiplied by the years of service prior to July 1, 2001, and 2.17 percent of their average monthly compensation multiplied for the years of service after July 1, 2001.

For the purpose of calculating the pension benefit, average monthly compensation means the average of a member's 36 consecutive months of highest compensation, after excluding certain elements, times approximately 110 percent, while participating in the Plan. For participants in the plan as of January 1, 2001, benefits start to vest after three years of service with a 20 percent vested interest; after four years of service,

40 percent; and after five years of service, 100 percent. New participants after January 1, 2001, start to vest at 5 years of service, at which time they are vested 100 percent. The Plan also provides for early retirement and pre-retirement death benefits. The Plan is not subject to the Employee Retirement Income Security Act (ERISA) of 1974, but is operated consistent with ERISA fiduciary requirements.

The Water District contributes amounts actuarially determined necessary to fund the Plan in order to pay benefits when due and to provide an allowance sufficient to finance the administrative costs of the Plan. Contributions cannot revert to or be revocable by the Water District or be used for any purpose other than the exclusive benefit of the participants.

At June 30, 2011, and 2010, participants in the Plan consisted of the following:

C. Annual Pension Cost and Net Pension Obligation

It is the policy of the Water District to pay Annual Required Contributions (ARC) when due; therefore, annual pension cost and the ARC are the same and aggregated \$26,606,950 for the year ended June 30, 2011, and \$25,753,794 for the year ended June 30, 2010. The significant actuarial assumptions used to determine the ARC are: (a) rate of return on the investment of present and future assets of 7.50 percent per year compounded annually, (b) individual salary increases of 5.25 percent per year (c) total payroll increases of 5.00 percent, (d) inflation rate of 6.25%.

An actuarial valuation has been performed each plan year since February 1987.

The Plan uses the aggregate actuarial cost method. Because this method does not identify or separately amortize unfunded actuarial accrued liabilities, information about the plan's funded status and funding progress has been prepared using the entry age normal actuarial cost method. The information presented as required supplementary information is intended to serve as a surrogate for the funded status and funding progress of the plan.

E. Valuation of Investments

Domestic equity and domestic bond amounts represent units of investments in aggregate indexed accounts. These accounts and the money market account are stated at fair value, measured by the underlying market value as reported by the managing institutions. Insurance contracts are Guaranteed Investment Contracts and pooled accounts, stated at contract value as determined by the insurance companies in accordance with the terms of the contracts, plus an estimated interest accrual for the pooled accounts. Excluded from the plan assets are annuities purchased for retired employees or their beneficiaries from an insurance company rated at least A+ by A.M. Best insurance rating company

F. Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting. Employer contributions are recognized and received when due. Participants do not make contributions except under certain conditions to voluntarily purchase additional years of service. Contributions are non-refundable. Benefits, which are purchased insurance company annuities, are recognized and paid when due.

G. Funded Status and Funding Progress

As of July 1, 2010, the most recent actuarial valuation date, the plan was 51.3 % funded. The actuarial accrued liability was \$322.9 million, and the actuarial value of assets was \$165.5 million, resulting in an unfunded actuarial accrued liability (UAAL) of \$157.4 million. The covered payroll (annual payroll of active employees covered by the plan) was \$119.7 million, and the ratio of UAAL to the covered payroll was 131.5%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Amounts determined regarding the funded status of the plan and the annual required contributions for the District are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of the plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities. However, because fiscal year 2008 was a transition year for calculating the plan's funded status and funding progress using the entry age normal actuarial cost method, only three years are available for display. The reference to the schedule of funding progress presented as RSI does not represent or imply incorporation of the schedule into the notes to the basic financial statements.

13. RELATED PARTY TRANSACTIONS

The County transfers sales, fuel, and various other taxes and fees deposited in the Master Transportation Plan special revenue fund to the RTC, a discretely presented component unit. Transfers during the fiscal year ended June 30, 2011, totaled \$210,957,184. The balance payable from the Master Transportation Plan fund to the RTC as of June 30, 2011, was \$36,474,209.

Plan Information

Clark County and the component units described in Footnote I contribute to five different defined benefit health programs:

1. Clark County retiree health program (County) – the County plan is an agent, multiple-employer defined benefit plan. Retirees may choose between the Clark County Self-Funded Group Medical and Dental Benefits Plan (Self-Funded Plan) and a health maintenance organization (HMO) plan.
2. Public Employee Benefit Program (PEBP) – an agent, multiple-employer, defined benefit plan;
3. Clark County Firefighters Union Local 1908 Security Fund (Fire Plan) – a single-employer, defined benefit plan;
4. Las Vegas Metro Employee Benefit Trust (Metro Plan) – a single-employer, defined benefit plan; and
5. Las Vegas Police Protection Association Civilian Employees, Sierra Choice/HPN (Metro Civilian Plan) – a single employer, defined benefit plan.

Each plan provides medical, dental, and vision benefits to eligible active and retired employees and beneficiaries. Except for the PEBP, benefit provisions are established and amended through negotiations between the respective unions and the employers. PEBP benefit provisions are established by the Nevada State Legislature.

The Self-Funded Plan is included in the financial reporting entity, as described in the next section. The Public Employee Benefit Plan, Clark County Firefighters Union Local 1908 Security Fund, and the Las Vegas Metro Employee Benefit Trust issue publicly available financial reports that include financial statements and required supplementary information for those plans. Those reports may be obtained by writing or calling the plans at the following addresses or numbers:

Funding Policy and Annual OPEB Cost

For all plans other than the PEBP, contribution requirements of plan members and the employer are established and may be amended through negotiations between the various unions and the governing bodies of the employers.

Clark County is required to pay the PEBP an explicit subsidy, based on years of service, for retirees who enroll in this plan. In 2011, retirees were eligible for a minimum subsidy of \$86 per month after 5 years of service with a Nevada state or local government entity. The maximum subsidy of \$473 is earned after 20 years of combined service with any eligible entity. The subsidy is set by the State Legislature.

The annual OPEB cost for each program is calculated based on the annual required contribution to the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The County's annual OPEB cost for the current year and the related information for each program are as follows:

Funded Status and Funding Progress (Continued)

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the plans and the annual required contributions of the employer are subject to continual revision, and actual results are compared to past expectations. Supplementary information will provide multi-year trend information that will show, in future years, whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions

Projections of benefits are based on the substantive plans (the plans as understood by the employer and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the County and the plan members at this point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Significant methods and assumptions are as follows:

Reserve fund for their portion of the annual OPEB cost. As of June 30, 2011, the Other Postemployment Benefit Reserve fund had \$162,711,002 in cash and investments, and \$79,919,165 in receivables that the County intends to use for future OPEB costs for the net OPEB obligations of the County, PEBC, Fire and Detention portion of Metro and Metro Civilian plans, which total \$268,088,588 as of June 30, 2011. These assets cannot be included in the plan assets considered in the OPEB funding schedules because they are not held in trust.

Agency Fund

The County established the Other Postemployment Benefits Agency Fund during fiscal year 2010 to comply with governmental accounting standards regarding OPEB assets not held in trust. The beginning balance is equal to the net OPEB obligation (NOO) as of June 30, 2010. Additions consist of the increase to NOO and deletions comprise contributions paid during the fiscal year. The ending balance equals the NOO as of June 30, 2011.

Clark County Self-Funded Group Medical and Dental Benefits Plan

Clark County administers the Clark County Self-Funded Group Medical and Dental Benefits Plan, an agent, multiple-employer defined benefit plan (the “Self-Funded Plan”). Participants of the Self-Funded Plan include Clark County, University Medical Center of Southern Nevada, the Las Vegas Valley Water District, the Clark County Water Reclamation District, the Las Vegas Convention and Visitors Authority, the Regional Transportation Commission of Southern Nevada, the Regional Flood Control District, and the Henderson Library District. The Self-Funded Plan provides benefits for all full-time active employees of each participant entity effective the first day of the month following two consecutive months of active employment, as well as for retired employees of the entities. As of June 30, 2011, there were 7,725 employee members and 1,363 retired members enrolled in the Self-Funded Plan, with 9,594 additional covered dependents. The Self-Funded Plan provides medical, dental, and vision benefits. The Self-Funded Plan is governed by an interlocal agreement between each of the participant entities, and all Self-Funded Plan benefit changes must be approved by the governing boards of these entities.

The Self-Funded Plan is not administered as a qualifying trust or equivalent arrangement. The Self-Funded Plan is included in this CAFR as an internal service fund (the Self-Funded Group Insurance fund), as required by Nevada Revised Statutes.

Basis of Accounting: The Plan is accounted for using the accrual basis of accounting. Plan member and employer contributions are recognized in the period in which contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan.

Method Used to Value Investments: Investments are reported at fair value as described in Note 1.

Retirement Health Account Plan

Effective November 1, 2005, Clark County established a retirement health account plan under the provisions of Internal Revenue Code sections 105 and 106. The purpose of the plan is to provide employees a means to save for

the cost of health insurance premiums once they retire. Each participant maintains a separate account within the plan. All contributions come from employees, with the exception that the County provides a 100 percent match up to \$480 annually for a maximum of five years to employees in eligible bargaining units. Retirees are reimbursed from their individual accounts for their out-of-pocket health insurance premium costs as they submit documentation of those costs. As of July 1, 2007, the plan was closed to new participants.

Contributions and Reserves

Premium rates for the Plan are established through the previously mentioned interlocal agreement. Each participant entity, through its employee bargaining and budgeting processes, establishes the employer and employee contribution sharing percentages. All administrative costs other than personnel costs are funded through premium rates. Administrative personnel costs are funded through the County Liability Insurance Internal Service fund, which provides general risk management administration. The County pays approximately 90 percent of premiums for active employee coverage, an average of \$8,117 per active employee for the year ended June 30, 2011. County retirees pay the entire cost of their premium. Active and retiree loss experience is combined to create a single, blended premium for each level of coverage (member only, member plus spouse, member plus children, or family), as required by state law. This combining of loss experience creates an implicit subsidy to the retirees who would otherwise pay higher premiums if their loss experience were rated separately.

Clark County Regional Flood Control District

The Clark County Regional Flood Control District (the “District”) uses the County and PEBP plans, with contribution rates and actuarial assumptions identical to those previously described. The District’s annual OPEB cost for the current year is as follows:

On August 3, 2011 The Department of Aviation refunded the series 2008A-1 and 2008B-1 with the 2011B-1, and 2011B-2, respectively consisting of \$200 million of AMT Adjustable Rate Airport System Subordinate Lien Revenue Bonds. The letter of credit provider on the 2011B-1 is Citibank, N.A. The remarketing agent for the 2011B-1 is Citibank Global Markets Inc. The annual fees for the 2011B-1 series are 85 basis points. The letter of credit for the 2011 B-2 is Royal Bank of Canada. The remarketing agent for 2011B-2 is RBC Capital Markets, LLC. The annual fees for the 2011B-2 are 85 basis points. The 2011B-1 series bond matures in 2022 and the series 2011B-2 bond matures in 2022. The maturities of the 2011B-1 and 2011B-2 series are identical to the 2008A-1 and 2008B-1 maturities respectively.

On October 19, 2011 the Water District issued the following bonds: Series 2011 B, \$129,650,000 general obligation refunding bonds, additionally secured by SNWA pledged revenues, with a true interest cost of 4.29%; Series 2011C, \$267,815,000 general obligation refunding bonds, additionally secured by SNWA pledged revenues, with a true interest cost of 4.04%; and Series 2011D, \$78,680,000 general obligation refunding bonds with a true interest cost of 3.57%

The 2011B Bond proceeds advance and currently refund certain SNWA bond issues. A portion of the 2011C Bond proceeds advance refund the \$188,880,000 remaining balance of the Water District's 2003B bonds. The 2011D Bond proceeds advance refund \$81,990,000 of the Water District's 2003A bonds.

See Note 11, Joint Ventures, for Water Reclamation District subsequent events.

Discretely Presented Component Unit

In November 2011, Clark County sold approximately \$118.1 million in revenue refunding bonds on behalf of the RTC. The RTC refunded the motor vehicle fuel tax revenue bond series 2003, which resulted in a cash flow interest expense savings of approximately \$10.6 million and a net present value savings of approximately \$1.5 million. The revenue refunding bonds mature in July 2023 with an overall interest rate ranging from 4.00 to 5.00% and true interest cost, net of premium, of 2.79%. Interest and principal payments will begin in July 2012. All debt service payments will be funded with Motor Vehicle Fuel Tax revenue. The bond proceeds can only be used for bond sale expenses and refunding of existing bonds.

Schedule of Funding Progress

The Las Vegas Valley Water District Pension Plan uses the aggregate actuarial cost method. Because the method does not identify or separately amortize unfunded actuarial accrued liabilities, information about the plan's funded status and funding progress has been prepared using the entry age normal actuarial cost method. The information presented below is intended to serve as a surrogate for the funded status and funding progress of the plan.

<u>Actuarial Valuation Date</u>	<u>Actuarial Value of Assets</u>	<u>Entry Age Normal Actuarial Accrued Liability (AAL)</u>	<u>Unfunded Actuarial Accrued Liability (UAAL)</u>	<u>Funded Ratio</u>	<u>Covered Payroll</u>	<u>UAAL as a Percentage of Covered Payroll</u>

The actuarially determined AAL and UAAL involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. The estimates are subject to continual revision.

The July 1, 2007, actuarial valuation is the first to use the entry age actuarial cost method. As additional actuarial valuations using this method are obtained, this schedule will ultimately present information from the six most recent valuations.

Budgetary Information

The County uses the following procedures to establish, modify, and control the budgetary data presented in the financial statements:

- a. Prior to April 15, the County Manager submits to the Nevada State Department of Taxation the tentative budget for the next fiscal year, commencing on July 1. The budget as submitted contains the proposed expenditures and means of financing them.
- b. The Nevada State Department of Taxation notifies the County of its acceptance of the budget.
- c. Public hearings are conducted on the third Monday in May.
- d. After all the changes have been noted and hearings closed, the County Commission adopts the budget on or before June 1.
- e. The County Manager is authorized to transfer budgeted amounts within functions or funds, but the County Commissioners must approve any transfers between funds or increases to a fund's original appropriated level.
- f. Increases to a fund's budget (augmentations) other than by transfers are accomplished through formal County Commission action.
- g. The General Fund and all special revenue, debt service, and capital project funds have legally adopted annual budgets.
- h. Statutory regulations require budgetary control to be exercised at the function level within the General Fund or at the fund level of all other funds. The County administratively exercises control at the budgeted item level within a department.
- i. All appropriations lapse at the end of the fiscal year. Encumbrances are reappropriated in the ensuing fiscal year.
- j. Budgets are adopted on a basis consistent with the method used to report on governmental funds that are prepared in accordance with the accounting principles generally accepted in the United States of America.
- k. Budgeted expenditure amounts for the year ended June 30, 2011, as originally adopted, were augmented during the year for grants and other County Commission action.

Reconciliation of General Fund (Budget Basis) to the General Fund (Modified Accrual Basis)

This statement reconciles the general fund as presented for budget purposes to the presentation required under the modified accrual basis of accounting.

Internal Reported Special Revenue Funds

This statement details special revenue funds on a budgetary basis that are included in the general fund under the modified accrual basis.

MAJOR GOVERNMENTAL FUNDS

MAJOR GOVERNMENTAL FUNDS

This section is intended to report a reconciliation of the major fund balance sheets reported on a budgetary basis to the major fund balance sheets reported on a modified accrual basis. Major funds that do not require such a reconciliation are intentionally omitted.

COMMENTS OF INDEPENDENT AUDITORS

KAFOURY, ARMSTRONG & CO.
A PROFESSIONAL CORPORATION
CERTIFIED PUBLIC ACCOUNTANTS

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Honorable Board of County Commissioners
and the County Manager
Clark County, Nevada

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of Clark County, Nevada (the "County") as of and for the year ended June 30, 2011, which collectively comprise the County's basic financial statements and have issued our report thereon dated January 9, 2012. Our report was modified to include a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Other auditors audited the financial statements of University Medical Center of Southern Nevada, Las Vegas Valley Water District, Big Bend Water District, and Regional Transportation Commission of Southern Nevada, as described in our report on Clark County, Nevada's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting and compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and responses as item 2011-1 FS that we consider to be a significant deficiency in internal control over financial reporting. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the financial statements of the County are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

The County's response to the finding identified in our audit is described in the accompanying schedule of findings and responses. We did not audit the County's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, the Board of County Commissioners, and others within the County, and is not intended to be and should not be used by anyone other than these specified parties.

CLARK COUNTY, NEVADA
SCHEDULE OF FINDINGS AND RESPONSES
JUNE 30, 2011

FINDING 2011-1-FS POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

Criteria: Governmental Accounting Standards Board (GASB) Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, establishes standards of accounting and financial reporting for OPEB expenses and related OPEB liabilities as well as note disclosures and required supplementary information in the financial reports of state and local government employers. In determining the OPEB expenses and related liabilities, employers are required to obtain an actuarial valuation at least biennially for OPEB plans with total membership of 200 or more participants.

Condition: The biennial OPEB valuation was obtained for the County's main plan during the year under audit. However, we noted that certain census data provided to the actuary was inaccurate. Providing the actuary with accurate census data is a continued problem that has occurred over the past three years.

Cause: As in prior years, there appears to be insufficient controls in place over the review of the census data submitted to the actuary.

Effect: Insufficient controls over the OPEB actuarial valuation process increase the likelihood that OPEB expenses and related OPEB liabilities will be materially misstated in the County's financial reports and the likelihood that management and other financial statement users will rely on faulty information to make important decisions about the entity.

Recommendation: The County should have sufficient controls in place over the actuarial valuation process of postemployment benefits other than pensions (OPEB) for each of the OPEB plans to which it contributes. These controls should help to ensure that the independent actuary is provided with accurate census data.

Management's Response: The County will implement procedures to ensure the validation of census data against County payroll records prior to its submission to the actuary.

**CLARK COUNTY, NEVADA
AUDITOR'S COMMENTS
JUNE 30, 2011**

CURRENT YEAR STATUTE COMPLIANCE

Clark County, Nevada conformed to all significant statutory constraints on its financial administration during the year with the following exceptions:

- As disclosed in Note II, "Stewardship, Compliance, and Accountability", certain expenditures exceeded appropriations.

PROGRESS ON PRIOR YEAR STATUTE COMPLIANCE

The County continues to have funds with expenditures exceeding appropriations.

PRIOR YEAR RECOMMENDATIONS

We noted material weaknesses in internal control over financial reporting, which were reported in the Schedule of Findings and Responses for the year ended June 30, 2010, as items 2010-1-FS through 2010-4-FS. Finding 2010-1-FS has not been fully resolved and is reported in the accompanying Scheduling of Findings and Responses as 2011-1-FS.

CURRENT YEAR RECOMMENDATIONS

We noted a continued internal control deficiency over financial reporting, which has been reported as a significant deficiency in the accompanying Schedule of Findings and Responses as items 2011-1-FS.

INDEPENDENT ACCOUNTANT'S REPORT

To the Honorable Board of County Commissioners
and County Manager
Clark County, Nevada

We have received from County management the statement required by Nevada Revised Statute 354.624(5)(a) which indicates for each of the funds set forth in that paragraph:

- The identified funds are being used in accordance with the provisions of NRS Chapter 354.
- The funds are administered in accordance with accounting principles generally accepted in the United States of America.
- The reserves (ending fund balances/net assets) in the funds at June 30, 2011, are limited to amounts that are reasonable and necessary to carry out the purposes of the funds (based on the interpretation of reasonable and necessary provided by the Legislative Counsel Bureau).
- The sources of revenues, including transfers, available for the funds are as noted in the financial statements.
- The statutory and regulatory requirements applicable to each of the funds.
- The balance and net assets of the funds are as noted in the financial statements.

This assertion (statement) is the responsibility of the management of Clark County, Nevada. Our responsibility is to review this assertion.

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on the assertion. Accordingly, we do not express such an opinion.

Based on our review, nothing came to our attention that caused us to believe that the assertion provided by management referred to above is not fairly stated in all material respects.
