A motion was made by Bill Laub, seconded by Diane Cravotta approving unanimously the Minutes of May 2, 2016, as written.

D. Elect the Chairman and Vice Chairman for 2017

A motion was made by Diane and Pat Burke seconded to elect Allyn Vaughn as Chairman and Bill Laub as Vice Chairman.

E. Appeal Determination /Vote

Chairman Vaughn noted there are four (4) Walton Trust Property appeal determinations on the Agenda regarding the property. Girard Page, Fire Marshal indicated the Walton’s attorney filed four separate appeals and in accordance with Rules and Procedures each of the Board of Fire Code appeals shall be heard separately.

John Netzorg, Attorney representing the Land Owner provided a list of documents for the appeal initially received on October 9, 2017. In addition, the attorney also submitted substantial enhancement to those documents at the Fire Board of Appeals Meeting. (See attached).

Appellant’s attorney stated his appeal for the following:

- The Notice of Violations should be addressed to the occupants, not landowners relative to the operational permits required per the 2012 Clark County Fire Code.
- Fire hydrant and fire access fire code violations are the responsibility of the building owner.
- A path to successfully obtain all permits for the landowner and occupants managing their separate businesses.
- A solution to reflect the actual history of the property and structures originally built to an earlier code of record.

Chairman Allyn Vaughn asked Girard Page, Fire Marshal to summarize the Notice of Violations.

Girard Page, Fire Marshal, completed a review of the code violations. (See attachments submitted by Attorney Netzorg).

The property owner asked if the spray booth had to be protected by a water based system. The currently installed system is a chemical system. The fire inspector, Brian Kern, presented details on the location of the existing fire hydrants showing noncompliance with the required code, one fire hydrant was measured at 1112 feet away from the building. The attorney advised there were prior repairs to the front office from an earlier fire in 2009. Jerry Stueve advised when new tenant or remodeled construction is done, the building needs to be brought up to code.

The attorney asked why this particular inspection was conducted. The Southern Nevada Health District contacted Clark County advising the building was not up to code.

It was determined that the landowners need to submit plans to bring the property into code compliance or why the code of records would support the current conditions. No vote was taken at this meeting;
