PUBLIC HEARING

APP. NUMBER/OWNER/DESCRIPTION OF REQUEST

WS-21-0034-CONTRERAS, JULIE:

WAIVER OF DEVELOPMENT STANDARDS to increase block wall height in conjunction with an existing single family residence on 4.0 acres in an R-U (Rural Agriculture) (RNP-II) Zone.

Generally located on the southwest corner of Homestead Road and Log Cabin Way within Lone Mountain. MK/sd/jd (For possible action)

RELATED INFORMATION:

APN:

125-05-702-001

WAIVER OF DEVELOPMENT STANDARDS:

Increase the height of a block screen wall up to 8 feet where a maximum height of 6 feet is permitted per Chapter 30.64 (a 33% increase).

LAND USE PLAN:

LONE MOUNTAIN - RESIDENTIAL AGRICULTURE (UP TO 1 DU/AC)

BACKGROUND:

Project Description

General Summary

- Site Address: 9870 Four Views Street
- Site Acreage: 4
- Number of Lots/Units: 1
- Project Type: Block wall
- Wall Height: 8 feet, 4 inches

Site Plans

The plans depict a proposed single family residence along Log Cabin Way as a corner lot between Homestead Road and Four Views Street. The overall size of the property is 4 acres with access shown from Four Views Street. The single family residence is currently under construction with a proposed block wall height of 8 feet.

Landscaping

No new landscaping is proposed or required with this request.

Elevations

The plans depict a proposed concrete masonry block wall that will be 8 feet in height around the perimeter of the property. The proposed wall will consist of stucco enhancement with a precast cap per plans.

Applicant's Justification

The applicant indicates the increase in block wall is necessary due to safety, privacy, and aesthetics. The applicant states that the area is considered rural standards with no sidewalk, gutter, and streetlights.

South, East, & West	Residential Agriculture (1 du/ac)	R-A (RNP-II)	Single family residential
North	City of Las Vegas	R-E	Single family residential & undeveloped

STANDARDS FOR APPROVAL:

The applicant shall demonstrate that the proposed request meets the goals and purposes of Title 30.

Analysis

Current Planning

According to Title 30, the applicant shall have the burden of proof to establish that the proposed request is appropriate for its existing location by showing that the uses of the area adjacent to the property included in the waiver of development standards request will not be affected in a substantially adverse manner. The intent and purpose of a waiver of development standards is to

modify a development standard where the provision of an alternative standard, or other factors which mitigate the impact of the relaxed standard, may justify an alternative.

Staff believes that an increase in block wall height up to a maximum of 8 feet will have an impact on the surrounding properties. All the adjacent single family residences in the immediate area are either open to the street, decorative block walls or a low profile fencing that are below 8 feet in height. Currently, the applicant's property has an existing fence around the perimeter of the property and incorporates landscaping. There is no reason to believe that a 6 foot high block wall will provide for inadequate security. Staff finds the request is inconsistent with Urban Specific Policy 10 of the Comprehensive Master Plan, which encourages in part that site designs are to be compatible with adjacent land uses; therefore, staff cannot support the request.

Staff Recommendation

Denial.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Comprehensive Master Plan, Title 30, and/or the Nevada Revised Statutes.

PRELIMINARY STAFF CONDITIONS:

Current Planning

If approved:

- Applicant is advised that the County is currently rewriting Title 30 and future land use applications, including applications for extensions of time, will be reviewed for conformance with the regulations in place at the time of application; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and that this application must commence within 2 years of approval date or it will expire.

WS-21-0045-FFPLS LAS VEGAS, LLC:

WAIVER OF DEVELOPMENT STANDARDS to increase the height of a block wall in conjunction with an existing cemetery on 3.9 acres in an R-E (Rural Estates Residential) Zone

Generally located on the northeast corner of Monte Cristo Way and Craig Road within Lone Mountain. RM/sd/jd (For possible action)

RELATED INFORMATION:

APN:

WAIVER OF DEVELOPMENT STANDARDS:

Increase the height of a decorative block wall to 6 feet where a maximum height of 3 feet is allowed per Section 30.64.020 (a 50% increase).

LAND USE PLAN:

LONE MOUNTAIN - RESIDENTIAL SUBURBAN (UP TO 8 DU/AC)

BACKGROUND:

Project Description

General Summary

- Site Address: 7450 W. Craig Road
- Site Acreage: 3.9
- Project Type: Block wall
- Wall Height (feet): 6

Site Plans

The plans depict an existing cemetery located along Craig Road on the northeast corner of Monte Cristo Way. Access to the property is from Craig Road and Monte Cristo Way. The proposed block wall is located along the property line adjacent to Craig Road. The block wall will replace an existing chain-link fence along Craig Road. A decorative fence includes a block bottom and wrought iron on top. The total height of the block wall will be 6 feet and will utilize decorative features of a decorative block wall.

Landscaping

Landscaping is not a part of this request.

Elevations

The plans depict a proposed decorative block wall with a 2 foot high block wall and a 4 foot high decorative wrought iron metal. The proposed columns are 16 inches by 6 foot high and have concrete footings.

Signage

Signage is not a part of this request.

Applicant's Justification

The applicant states they are wanting to replace an existing chain-link fence along portions of their property along Craig Road. The applicant states that individuals keep climbing and jumping over into the property and feel it is imperative to install a protective barrier. In addition, there is a bus stop at this location where people congregate, especially students.

Surrounding Land Use

	Planned Land Use Category	Zoning District	Existing Land Use
North	City of Las Vegas	R-CL (single family compact)	Single family residential
South	City of Las Vegas	R-PD8 (planned development district)	Single family residential
East	City of Las Vegas	Office	Office
West	City of Las Vegas	R-1 (single family district)	Single family residential

STANDARDS FOR APPROVAL:

The applicant shall demonstrate that the proposed request meets the goals and purposes of Title 30.

Analysis

Current Planning

According to Title 30, the applicant shall have the burden of proof to establish that the proposed request is appropriate for its existing location by showing that the uses of the area adjacent to the property included in the waiver of development standards request will not be affected in a substantially adverse manner. The intent and purpose of a waiver of development standards is to modify a development standard where the provision of an alternative standard, or other factors which mitigate the impact of the relaxed standard, may justify an alternative.

Staff agrees with the justification provided by the applicant and finds the increase in screen wall along Craig Road up to a maximum of 6 feet with decorative wrought iron will not adversely impact the surrounding properties since the wall will provide additional security and privacy and similar block wall heights exist in the immediate area. The ornamental wrought iron addition to the existing block wall along Craig Road complies with Urban Specific Policy 16 of the Comprehensive Master Plan, which encourages all new perimeter walls and fences to be decorative. Staff can support this request.

Staff Recommendation

Approval.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Comprehensive Master Plan, Title 30, and/or the Nevada Revised Statutes.

PRELIMINARY STAFF CONDITIONS:

Current Planning

- Applicant is advised that the County is currently rewriting Title 30 and future land use applications, including applications for extensions of time, will be reviewed for conformance with the regulations in place at the time of application; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and that this application must commence within 2 years of approval date or it will expire.

To Whom it May Concern,

We are needing to update our fence at the location mentioned above. We have a bus stop right in front of our property and the high school kids use the fence for sitting on, climbing, and jumping over so we would like to be able to make it a little taller to possibly deter them from getting on our fence. We don't want anyone to get hurt on our fence. We call the school multiple times a year and every year, we have the same issues.

This will put our minds to ease that we have done what is best for the community and area around us.

Thanks
