

# CLARK COUNTY PUBLIC ARTS - ROTUNDA GALLERY PRESENTS

# MOSAICS

As an ancient form of art, mosaics have long been assembled from tiny stones, shells, or glass into spectacular artworks covering floors and walls. Subject matter ranged across geometric patterns, narrative scenes, displays of plants and nature, and decorative motifs. Artists making mosaics today are inspired by classical subject matter or created something entirely new in the ultra-contemporary art setting of present day.

## JURIED BY DON MICHAEL JR.

After getting his BA at the University of Science and Arts of Oklahoma, Don Michael Jr. started working as a graphic artist in television which quickly grew into the roll of Art Director. Don worked for TV stations in Oklahoma City, OK, Norfolk, VA and Las Vegas, NV while garnering several industry awards, including an EMMY.

During all this time, Don continued to pursue his passion for painting, often working into the wee hours while his family was sleeping. His hard work and dedication started paying off as many of his works have been juried into national exhibitions and publications, sometimes even garnering awards.

Don has left television behind and now devotes himself to painting full-time, only taking time out for the occasional freelance graphic gig and to teach acrylic painting classes.

On display at the Rotunda Gallery at the Clark County Government Center  
500 S Grand Central Pkwy 6th Floor, Las Vegas, NV 89155  
Monday - Thursday from 7:30 AM - 5:30 PM
