RESORT CORRIDOR

A resort specific corridor has been established to limit the work and activities which may negatively affect the access to and from the resort corridor.

Due to the varying holiday/event days and start times, **no work** may take place along any of the streets listed below when notice has been provided to industry or during already established Title 30 work time restrictions.

It is the responsibility of the barricade company and contractor to ensure that no work takes place during these times. All work areas within the Resort Corridor must be backfilled/plated, made safe, and all equipment removed to allow full roadway and pedestrian access.

Please see list regarding the restricted streets:

- **On Valley View from Sahara to Sunset**
- **On Sunset from Valley View to Airport Connector**
- **On University Center from Hacienda to Flamingo**
- **On Flamingo from University Center to Paradise**
- **On Paradise from Flamingo to Sahara**
- **On Sahara from Paradise to Valley View**
- **All other streets located within this footprint**
