August 13, 2010

Debbie Conway,

Dear Debbie, it has been over 30 years since I last visited the recorders office, but what great changes have been made. Mel Close (former State senator and speaker of the Nevada assembly) and me went yesterday and I expected to I guess still expected the office to be in the Stone Age, but found not only a progressive office but a great staff. One young lady name Mellissa really took over us old guys was friendly and knowledgeable and helped us to find our documents which were over 30 years old but did it with a smile. Congratulations again .

Sincerely,

James H. Bilbray
