Rock Down to *Electric Avenue!* on April 20 to Test Electric Vehicles, Lawn Equipment and More

This Southern Nevada Clean Cities Coalition initiative is part of Clark County's "All-In April" Events

Test drive electric vehicles, scooters and ebikes, learn more about battery-electric lawn equipment and enjoy lunch prepared and served from environmentally friendly food vendors at ***Electric Avenue!***

What: *Electric Avenue! A Southern Nevada Clean Cities Coalition Initiative*

When: Thursday, April 20, noon to 4 p.m.

Where: Clark County Building and Fire Prevention parking lot, 4701 W. Russell Rd.

Presented by Clark County's Department of Environment and Sustainability as part of its Clean Cities Initiative, ***Electric Avenue!*** is also highlighted as part of the "All-In April," showcasing Clark County's sustainability and climate action plan, [All-In Clark County](#).

"Our surveys have shown people are interested in considering electric vehicles when they're shopping for a new car," said Jodi Bechtel, deputy director of the Department of Environment and Sustainability. "***Electric Avenue!*** is a great opportunity to get more information about EVs, battery-electric lawn equipment and how electrification is already here, accessible and affordable."

Vendors scheduled at ***Electric Avenue!*** include: Mean Green Motors, ABM Chargers, Arcimoto, Atomic Scooter, Findlay Audi, Findlay Kia, Findlay VW, Halo Car, Pedal & Pour, Rec World, Trek Bikes and Xos Trucks. Erbs Vegan Kitchen will be serving lunch throughout the event.

Additional information may be found on the [DES website](#).

About the Department of Environment and Sustainability

The Department of Environment and Sustainability is the air pollution control agency, regional Endangered Species Act compliance program, and sustainability office for all of Clark County, Nevada. Established as the Department of Air Quality by the Clark County Commission in 2001, it was renamed in 2020 and is comprised of two divisions: Air Quality and Desert Conservation Program. Through these two divisions, DES is ensuring the air we share meets healthful, regulatory standards, administering the County's Multiple Species Habitat Conservation Plan and addressing climate change through the All-In Clark County initiative.

Clark County is a dynamic and innovative organization dedicated to providing top-quality service with integrity, respect and accountability. With jurisdiction over the world-famous Las Vegas Strip and covering an area the size of New Jersey, Clark is the nation's 11th-largest county and provides extensive regional services to 2.3 million citizens and 45.6 million visitors a year (2019). Included are the nation's 8th-busiest airport, air quality compliance, social services and the state's largest public hospital, University Medical Center. The County also provides municipal services that are traditionally provided by cities to 1 million residents in the unincorporated area. Those include fire protection, roads and other public works, parks and recreation, and planning and development.
