AUTHORIZATION FOR POWER THROUGH THE METER AT FINAL ELECTRICAL INSPECTION FOR SINGLE FAMILY RESIDENCES

Project or Tract Name: _____

Building Permit Numbers of Residences to Be Energized: _____

(Attach Additional Sheet Listing All Permit Numbers If Necessary)

Building Permit Numbers of Residences to Be Withheld: _____

(A Minimum of Four Permits Are to Be Listed. Attach Additional Sheet Listing Permit Numbers If Necessary)

Contractor Name: _____ Contractor's License Number: _____

The permit owner is granted authorization to connect electric power through the meter upon completing the permitted electrical work and obtaining an approved final electrical inspection. This authorization is granted only for the permits designated above and is subject to all the provisions of the Clark County Code and to the following conditions and requirements.

1. A residence shall not be occupied for purposes other than performing construction work necessary to complete the building within the scope of the permit and in conformance with the approved plans until issuance of a Certificate of Occupancy.
2. This authorization is valid only when the building permits are active. This authorization shall expire concurrently as the building permits designated above expire.
3. The permittee assumes full responsibility and liability for:
 - a. Damage to the wiring system of the residence
 - b. Safety of the workforce
 - c. Direct or indirect damage resulting from the removal of electric power, whether removed by the permit owner or the Department of Development Services.
4. The permit owner shall defend, indemnify and hold Clark County harmless against all claims, demands, damages or costs that Clark County may incur, or for which Clark County may become responsible, by reason of the permit owner's operations or obligations pursuant to this authorization, including attorney fees and costs. This obligation shall survive any termination of this authorization.
5. Authorization for power shall become invalid upon misuse or deviation from the work as permitted. Once notified in writing by the Department of Development Services that the authorization is invalid, the permit owner shall initiate an immediate meter disconnect order to the serving utility.
6. A minimum of four residences shall be withheld electrical meter tag authorization and final building inspection approval until the remainder of the permitted residences designated are issued Certificates of Occupancy.

As a permit owner, I understand and accept full responsibility to comply with the conditions and requirements of this authorization. I furthermore understand and agree that if I fail to comply with the stated conditions and agreements, I may not be eligible for future participation in this process.
