Part I. General Information

Plumbing Licensing Required:
When you contract with a Nevada licensed plumbing contractor to perform work on the plumbing system within any Clark County jurisdiction, in or on your property, you should always check to see that the mechanic sent out to do the work is licensed through the Nevada State Board of Plumbing Examiners.

Part II. Identification Required
All individual workman engaged in the craft of plumbing in Clark County shall carry with them an I.D. issued through the Nevada State Board of Plumbing Examiners. You should always ask to see this identification as proof of their competency to complete the required repairs or installation.

This I.D. is a plastic badge with the picture of the certified person on the badge. It is issued through the Nevada State Board of Plumbing Examiners and the NITC (National Inspection, Testing and Certification) company that administers the examinations. Clark County’s logo and the NITC logo are at the top of the badge. The badge should also have the level of certification, either journeyman or master, on the badge. The journeyman level is the minimum requirement for individuals working without supervision.

The position of journeyman is authorized by this certification to have as many individuals as needed to complete the work under his/her supervision. The journeyman shall remain on site when work is being performed by those not licensed or certified.

Part III. Definition
Journeyman:
A journeyman plumber is an individual who has demonstrated qualifications in having the skills to perform independent work in the plumbing field and to supervise lesser qualified plumbers. The individual has taken and passed the appropriate journeyman examination accepted by the Building Official. A journeyman can perform all aspects of plumbing work. A journeyman plumber is responsible to the contractor for the quality of the work, code conformance, workmanship, legal requirements, and the technical codes of Clark County.

Part IV. Note
Protect your investments:
Always contract with a Nevada licensed plumbing contractor and insure that a minimum of a journeyman plumber is onsite to install or supervise the work being performed.

The employees of the Clark County Department of Building CANNOT recommend a plumbing company or contractor to you. You should contact the State Contractors Board or Better Business Bureau for information in reference to any plumbing company or contractor you are thinking of using for your projects or repairs.
# Department Of Building & Fire Prevention Locations & Services

## MAIN OFFICE
