    - Oct: 10,180.5
    - Nov: 21,351
    - Dec: 21,351

### Notes & Highlights
1. Data from previous months are subject to change as information gets updated in the software system after the end of each month.
2. Streetlighting work orders were changed in June 2016.
3. Newly activated Traffic Signals began to be reported in January 2020.
4. A small cell site license application is the initial application for a small cell site from a wireless licensee, or an application to modify an existing small cell site.
5. New Small Cell Violations/Impounds/Removals began to be reported in January 2020. Section 16.08.170 (9) (e) of the Clark County Code was amended to allow for enforcement of abandoned newsracks outside of the regulated H-1 zone.
6. Prior to 2020, the number of new pavement lane miles were measured in square yards. Starting in 2020, new pavement lane miles started to be measured in lane miles.
7. These measures were first reported in January 2017.
8. FixIt Clark County allows residents to report quality-of-life issues and request services. It replaces the previous reporting mechanism known as ClarkConnect. The historical data available includes inquiries from ClarkConnect.
