GENERAL INFORMATION:
Liquor and Gaming licenses are privileged licenses that require the applicant to submit a liquor license application packet and/or gaming license application packet. The licensing process will include a criminal background investigation conducted by the Las Vegas Metropolitan Police Department of all owners with 10% or more ownership interest in the business and a financial suitability investigation conducted by the Department of Business License to verify the source of funding for the liquor establishment. In addition, applicants for gaming licenses must obtain a gaming license from the Nevada Gaming Control Board prior to the issuance of a Clark County gaming license. Upon completion of the financial suitability investigation, the Department may issue a temporary license to allow the business to operate pending completion of the criminal background investigation(s). For additional information, please call the Department of Business License Liquor and Gaming Help Line at (702) 455-4125.
