

**CLARK COUNTY
DEPARTMENT OF BUSINESS LICENSE**

**GENERAL INFORMATION GUIDE
FOR TRANSIENT LODGING ESTABLISHMENTS**

INTRODUCTION

This publication was created to provide transient lodging operators with information about the combined transient lodging tax and business license fees within unincorporated Clark County. The publication addresses only tax and licensing matters administered by the Clark County Department of Business License.

This guide does not address regulatory matters of interest to transient lodging establishments that are administered by other county departments, such as zoning, building compliance, health, fire, safety, and property taxes. Transient lodging operators should consult with the appropriate County agencies for additional information about these other issues.

TRANSIENT LODGING ESTABLISHMENT DEFINED

The complete definition of “transient lodging establishment” is contained in the Clark County Code Section 4.08.005. In short, “transient lodging establishment” is defined as any structure or facility designed for occupancy by a person or persons who pay rent for dwelling, lodging, or sleeping purposes. The definition includes:

- Resort Hotels
- Bed & Breakfasts
- Inns
- Time-Shares (when rented by anyone other than an owner, owner’s guest, or exchange user)
- Hotels
- Apartment Houses
- Lodging Houses
- Motels
- Vacation Homes
- RV Parks/Campgrounds

The definition of transient lodging establishment does not include hospitals, medical housing/facilities, convalescent or nursing homes, foster homes, facilities for the care and treatment of individuals, housing for legally detained individuals, dormitories or educational housing, or housing provided and used solely by exempt charitable organizations or governmental agencies. Nor does the definition include time-shares if they are used by an owner, the guest of an owner, or a guest staying in the unit under a time-share exchange program. It should also be noted that vacation home licenses are limited strictly to certain condominium properties in limited areas, such as H-1 districts, meeting special zoning requirements.

BUSINESS LICENSES REQUIRED FOR TRANSIENT LODGING ESTABLISHMENTS

Transient Lodging Establishment Licenses

Every transient lodging establishment within unincorporated Clark County is required to obtain a business license issued by the Department. Except for apartment houses, recreational vehicle parks/campgrounds, and vacation homes, all transient lodging establishments are issued “Transient Lodging Establishment” business licenses, per Clark County Code 6.12.975. (Apartment houses and recreational vehicle parks/campgrounds have separate transient lodging licensing categories, per Clark County Code Sections 6.12.090, 6.12.852, and 6.12.982, respectively).

These business licenses are issued for a six-month period and therefore must be renewed semiannually. Business license fees for renewal of these licenses are assessed on a sliding scale basis, according to the number of rooms/spaces/units available for rent at the location.

Licenses of this nature wherein fees are based on a number of units, or remain constant regardless of revenue earned by the business, are referred to by the Department as “flat fee licenses.” A schedule of the semiannual flat fees due, by transient lodging establishment category, has been provided in [Appendix I](#) of this guide.

Transient Lodging – Miscellaneous Licenses

Most transient lodging establishments earn revenues from activities and services that are related to, but not directly attributable to, the primary business activity of renting sleeping rooms/spaces. Examples of such “related” revenues include earnings from vending machines, laundry facilities, in-room movies, telephone calls, or charges for services such as faxing, copying, or other business services.

Transient lodging establishments that earn “miscellaneous” revenues, such as those described above, must be separately licensed for the activities in accordance with Clark County Code Section 6.12.976 “Transient Lodging – Miscellaneous.” Transient Lodging-Miscellaneous licenses must also be renewed twice a year with the payment of business license fees. The “Transient Lodging – Miscellaneous” license fees are based on a percentage (approximately .05555%) of the miscellaneous (non-rent) gross revenue earned by the transient lodging establishment.

Licenses of this nature, wherein fees are based on a percentage of gross revenue earned, are referred to by the Department as “gross licenses.” Section 6.12.995 of the Clark County Code provides a schedule of fees for gross licenses. A copy of the fee schedule has been included in [Appendix II](#) of this guide.

Other Business Licenses

Additional licenses may be required for separate business activities conducted at a transient lodging establishment, such as restaurants, convenience stores, or gaming, liquor, and tobacco sales. Activities requiring separate business licenses, as defined in Clark County Code Chapters 6 and 8, are assessed fees (which may be either flat or gross) in accordance with the individual code provisions for the specific license.

The distinction between the “Transient Lodging - Miscellaneous” license and other required business licenses is that the activities covered by the Transient Lodging – Miscellaneous license are essentially dependent upon the transient lodging establishment’s primary activity of renting sleeping rooms/spaces, whereas other activities requiring separate business licenses could be operated in locations other than transient lodging establishments and/or could be conducted as stand alone activities, independent of the transient lodging activity.

TRANSIENT LODGING TAX

The transient lodging tax, established by the Nevada legislature, is imposed on the gross rental receipts of all transient lodging establishments throughout Nevada. Per state law, the incorporated cities are responsible for collection and administration of the tax within the city boundaries. Nevada Revised Statutes (NRS) Chapters 244 and 244A pertain to county administration and collection of the tax. As required by the state law, Chapter 4.08 of the Clark County Code was adopted to provide local administration of the combined transient lodging tax within unincorporated Clark County.

The “combined” transient lodging tax rate in unincorporated Clark County ranges between 10.5% and 13.38% depending on the type of transient lodging establishment (resort or non-resort), distance of the transient lodging establishment from the Las Vegas Convention Center, and whether the transient lodging establishment is located inside or outside the Primary Gaming Corridor and the Stadium District. Recipients of the tax collected within unincorporated Clark County include the Las Vegas Convention and Visitors Authority, the Clark County School District, local transportation districts, the Nevada Department of Tourism, the state of Nevada general fund (to be redirected to the State Supplemental School Fund after June 2011), and the Clark County General Fund.

A chart of the current applicable combined transient lodging tax rates for unincorporated Clark County, with a breakdown by recipient agency, is provided in [Appendix III](#) of this guide. The chart also includes references to the applicable Clark County Code section numbers establishing the individual components of the combined transient lodging tax for Clark County.

COMBINED TRANSIENT LODGING TAX ACCOUNT

Every transient lodging establishment within unincorporated Clark County is required to collect the combined transient lodging tax on rental revenue, in accordance with Clark County Code Chapter 4.08. The Department provides each transient lodging establishment with a unique tax account number (containing a series of three letters, such as RES or HOT, after the first seven digits) for monthly reporting of the combined transient lodging tax. This tax account is strictly a vehicle for reporting the combined transient lodging tax and is not a business license. As discussed previously in this guide, all transient lodging establishments within unincorporated Clark County must also obtain and maintain a business license for their transient lodging activities and any additional business licenses, as required, for other revenue generating activities in which they are engaged.

IMPORTANT DEFINITIONS FOR THE COMBINED TRANSIENT LODGING TAX

In order to properly collect and remit the combined transient lodging tax, operators of transient lodging establishments must have a good understanding of the revenues subject to the combined transient lodging tax as well as the revenues that are exempt from the tax. This guide contains complete definitions from the Clark County Code and supplemental information intended to enhance the transient lodging operator’s understanding of these revenues and the related exemptions.

Gross Receipts

In accordance with Clark County Code, the *gross receipts* of transient lodging establishments within unincorporated Clark County are subject to the combined transient lodging tax. Clark County Code Section 4.08.005(8), contains the following definition:

"Gross receipts" means the total amount of *rent* received and any forfeited deposits valued in money, whether accepted in money or otherwise, received by operators from occupants of a transient lodging establishment, not including the amount of the combined transient lodging tax imposed by this chapter whether or not it is billed to the transient guest as a combined transient lodging tax. Gross receipts shall not include refunds, uncollected rent that is written off as bad debt, discounts, or room allowances. Gross receipts shall include recoveries of rent previously written off as bad debt.

Rent

Clark County Code Section 4.08.005(16) contains the definition of “*rent*,” which is as follows:

"Rent"

- (a) Means the amount charged for a sleeping room/space in a transient lodging establishment, valued in money, whether received in money or otherwise, and including the following, regardless of whether separately stated:
 - (i) Charges that would normally be part of an all inclusive room rate, such as, but not limited to, payment processing fees, check-in fees, accommodation fees, facility fees, access fees, charges for additional guests, late check-out fees, and utility surcharges;
 - (ii) Charges applicable to cleaning and readying such room/space for occupancy including, but not limited to linen fees, cleaning fees, and non-refundable deposits;
 - (iii) Charges for rental of furnishings and appliances including, but not limited to, cribs, rollaways, refrigerators, televisions, microwaves, and in-room safes;

- (iv) Room charges applicable to pets including, but not limited to, non-refundable pet cleaning fees/deposits;
 - (v) Charges associated with attrition, cancellation, late arrival, or failure to occupy a room, including, but not limited to, attrition fees, cancellation fees, late arrival fees, early departure fees, and no-show fees;
 - (vi) Reimbursements received for use of a sleeping room/space under incentive programs, such as, but not limited to, frequent guest programs or rewards programs;
 - (vii) The value of a sleeping room/space included as a component of a package, pursuant to Section 4.08.035;
 - (viii) Any charges for services, amenities, accommodations, or use, not otherwise specified above, that are mandatory in nature and charged in connection with rental of a sleeping/room space.
- (b) Shall not include the charge for any food served or personal services rendered to the occupant, including but not limited to, valet service, room service, or delivery service.

Rent Included as a Component of a Package

In accordance with Clark County Code Section 4.08.035, the value of “rent included as a component of a package” is calculated by first determining the percentage of total package price that the rent alone represents, when all components of the package are priced at retail value. That percentage is then applied to the total package price to determine the value of the reportable rent revenue. As an alternative, transient lodging establishments have the option of collecting the transient lodging tax on the entire package price, in which event the entire package price is reportable as “gross receipts” on the monthly transient lodging tax return.

Exemptions

In accordance with Clark County Code Section 4.08.050, the following are exempt from the combined transient lodging tax:

- (a) Rent received for an apartment, licensed as an apartment house under Section 6.12.090 of this code, wherein the renter has entered into a written lease with a rental period greater than thirty days. However, in the absence of a written lease with a rental period greater than thirty days, rent received for apartments rented for thirty days or less shall be subject to the combined transient lodging tax.
- (b) Rent received from permanent residents [meaning any individual who has or shall have the right of occupancy in a sleeping room/space at the same transient lodging establishment for thirty-one consecutive days or more, and for whom rent is exempt from the transient lodging tax on the thirty-first day and every consecutive day thereafter, provided the individual continues to occupy or continues the right to occupy a sleeping room/space at the same transient lodging establishment].
- (c) Rent paid directly by the following exempt organizations: United States, state of Nevada, federally chartered credit unions, and the American Red Cross. This exemption does not extend to rent paid by an individual who receives a cash advance from, or is to be later reimbursed by, the exempt organization.
- (d) Rent paid by foreign diplomats properly registered with the United States State Department.
- (e) Complimentary rooms wherein there is no rent paid to the operator in conjunction with the occupancy.
- (f) The cost of or rent paid for a room in a transient lodging establishment that is not used for sleeping, such as a meeting room.

DEPARTMENT OF BUSINESS LICENSE ACCOUNTS FOR TRANSIENT LODGING ESTABLISHMENTS

As indicated in the preceding sections, most transient lodging establishments within unincorporated Clark County have at least three basic accounts with the Department of Business License:

- Transient Lodging Establishment *Business License* (flat fee license)
- Transient Lodging Establishment – Miscellaneous *Business License* (gross license)
- Combined Transient Lodging *Tax Account*

In addition to payment of the flat fees, based on the number of available sleeping rooms/spaces/units, transient lodging operators must also collect the combined transient lodging tax on those rental revenues. Operators receiving revenue strictly from the rental of sleeping rooms/spaces/units, and from no other source, would require only these two accounts with the Department - a business license for the rental activity and a combined transient lodging tax account for reporting tax collected on the rentals. However, because most transient lodging operators receive miscellaneous revenues other than rent, such as vending revenue, a second gross revenue based business license is required for reporting of the miscellaneous, non-rent, revenues of the transient lodging establishment.

In summary, rental activities (and the related rent revenue) are licensed under the “flat fee” license and subject to the combined transient lodging tax. Other “miscellaneous revenues,” excluding rent, are reported under the gross business license.

REVENUE CHART

The following chart includes a list of revenues that transient lodging establishments commonly collect from their guests. The chart indicates whether the individual revenue type would be considered:

- 1) Rent (covered by the flat fee business license and subject to the combined transient lodging tax),
- 2) Non-Rent (subject only to the gross revenue based miscellaneous business license fees), or
- 3) Non-revenue (subject neither to the combined transient lodging tax nor business license fees).

In reviewing this chart, transient lodging establishments are cautioned that the overall substance of a transaction will be a primary consideration of the Department in determining the proper categorization of a revenue item. As a rule of thumb, any charges that are mandatory in nature and collected in connection with rental of a sleeping room/space/unit, will be considered rental revenue by the Department and therefore subject to the combined transient lodging tax.

Note 1 - All of the revenues listed on this chart could be charged to guests who are subject to the combined transient lodging tax or to guests who are exempt from the combined transient lodging tax. Therefore, while the chart indicates that the charge would be subject to the combined transient lodging tax, if the guest meets the definition for exemption, the charge would not be subject to the combined transient lodging tax.

Failure to segregate taxable rental revenue from exempt rental revenue, however, could result in the entire amount being subject to the combined transient lodging tax. Transient lodging operators are cautioned, therefore, against recording various types of rent in single G/L accounts without making a distinction between taxable and exempt revenue entries. For instance “pet fees” may be collected from exempt guests as well as taxable guests. Separate G/L accounts should be used to record taxable pet fees and exempt pet fees. Use of a single G/L account could result in the total “pet fee” revenue being subject to the tax.

Note 2 - No transient lodging tax is required on items meeting the definition for exemption in accordance with Clark County Code Section 4.08.050. However, transient lodging operators are required to separately account for and report all exemptions from the transient lodging tax on their Combined Transient Lodging Tax Return. Failure to retain proper supporting documentation establishing the validity of an exemption will result in the exemption being disallowed and the combined transient lodging tax becoming due on the transaction.

Note 3 - Damage Fees are charges for the physical repair or replacement of furniture and fixtures due to damage/destruction caused by guests. Damages greatly exceed the normal wear expected from use of a rented room. Cleaning Fees, by contrast, do not involve repair and/or replacement of existing furniture and fixtures. Cleaning fees may be charged for extra maid service, for example, or to remove spots or stains on carpets, draperies, furniture, or bedding, but do not involve replacement of such items.

Note 4 - Liquor sold in a mini-bar requires a separate liquor license

Note 5 - On premises show may require a separate admissions license
