

What's New in Nevada Elections

Mail Ballot and In-Person Voting (AB321)

All Mail Ballot Elections: Starting in 2022, Nevada will have all-mail ballot elections. In-person voting options will still be available too. All “active” voters who registered to vote no later than 14 days before Election Day will receive a mail ballot, unless they opt-out.

- **Opt-Out and Opt-In:** To opt-out of receiving a mail ballot, you must submit an online or printed “Mail Ballot Preference Form.” You may also use the form to opt-in again if you had previously opted out or to request to vote by mail only in specific elections. To electronically submit your mail ballot preferences online, log in to the Secretary of State’s “Registered Voter Services” at www.nvsos.gov/votersearch. A printable form is at www.ClarkCountyNV.gov/vote. The Election Department must receive the printed or online “Mail Ballot Preference Form” no later than 60 days before Election Day (April 15 for the 2022 Primary Election) if you wish to opt-out. The deadline to opt-in if you had already opted-out is May 31, 2022.

In-Person Voting: You may still vote in person on a voting machine at any one of the many convenient early voting sites or Election Day vote centers, even if you receive a mail ballot. No matter where you live or what your precinct is, you may vote at any Clark County voting site you choose. An early voting schedule and Election Day vote center listing will be in your mail ballot packet, in your sample ballot, and online at www.ClarkCountyNV.gov/vote.

If you do not opt out of mail ballot voting and vote in person instead of by mail:

- If you have your mail ballot with you, you must surrender it at the voting site; or
- If you do not have your mail ballot with you, you must sign an affirmation that you are not voting twice in the same election.

Mail Ballot Drop Boxes: The Election Department will provide secure, easily accessible, and conveniently located mail ballot drop boxes. All early voting sites and all Election Day vote centers will have these drop boxes. It is a felony for anyone other than the Election Department to provide these boxes. You may deposit your mail ballot in a locked, drop box instead of sending it through the postal mail. You must still sign the outside of the envelope of the postage-paid return envelope provided specifically for you, showing your name and address, and seal your ballot inside of this envelope before you deposit it in the drop box (*do not put your ballot in another voter's return envelope*). Drop box locations and hours will be in your sample ballot and online at www.ClarkCountyNV.gov/vote.

Mail Ballot Delivery: Delivery of mail ballots will remain the same. It will begin no later than 20 days before Election Day for in-state voters and no later than 40-45 days before Election Day for out-of-state voters. If you do not receive your mail ballot packet by May 31, 2022, and have not voted but wish to vote by mail, *immediately* call (702) 455-VOTE (8683) or send an e-mail to MailBallotRequest@ClarkCountyNV.gov.

Mail Ballot and In-Person Voting (AB321) Continued

Mail Ballot Postmark and Receiving Deadlines: Voted mail ballots sent through the Post Office must be: (1) Mailed in the postage-paid return envelope provided specifically for you, showing your name and address, and you must also sign the outside of that envelope before mailing it (*do not put your ballot in another voter's return envelope*); (2) Postmarked on or before Election Day; and (3) Received by the Election Department on or before by 5:00 p.m. on the fourth day after Election Day (June 18, 2022).

Mail Ballot Signatures:

- Your signature on the outside of your mail ballot return envelope may be reviewed electronically, manually, or both. Electronic signature verification devices will be tested for accuracy before an election and audited daily during the processing of ballots.
- If an issue arises with your signature on the outside of your mail ballot return envelope, the Election Department will notify you using the contact information in your voter registration. If you need to “cure” your signature by providing an actual signature or a signature confirmation, you must do so by the sixth day after Election Day (June 20, 2022).
- At least once per year, all staff who administer elections must complete a forensic signature verification class approved by the Nevada Secretary of State.

Presidential Preference Primary (AB126)

A Presidential Preference Primary (PPP) Replaces Major Party Caucuses: Starting in 2024, Nevada will have a Presidential Preference Primary (PPP) instead of caucuses to determine the preferences of registered Democratic and Republican voters for their major party's nominee for U.S. President from among multiple candidates in their party. You may only vote for candidates from your own party (the party you specified on your voter registration application).

Election Date: The first Tuesday in February in presidential election years is the date for the PPP. In 2024, it will be February 6.

Early Voting Dates: Early voting for the PPP will start 10 days before Election Day and end the Friday before Election Day. In 2024, PPP early voting will be from January 27 (Saturday) to February 2 (Friday).

Candidate Filing Dates: October 1-15 of the year before the PPP are the dates for candidate filing with the Nevada Secretary of State. This will first happen in 2023.

Presidential Preference Primary (AB126) Continued

Minor Parties: Minor parties will not participate in the PPP and their candidates will go directly to the General Election ballot.

Registration: Existing registration time frames and procedures, including those for same-day registration and same-day updates, will apply to the PPP.

Same-Day Registration and Updates Online (AB321)

Same-Day Registration Online and Updates Online Have Been Extended: Starting in 2022, you may register to vote online or update your existing registration online up to and including Election Day. However, if you do this on or after the 13th day before Election Day (June 1-14, 2022), then in the current election you may not vote by mail and you may only vote in-person (at any early voting site or Election Day Vote Center you choose). New registrants may only cast a provisional ballot. Voters who updated their existing registration may vote a regular ballot.

Automatic Voter Registration, Effective January 1, 2024 (AB432)

Expansion of Automatic Voter Registration (AVR) Agencies: Agencies that provide AVR as well as standard registration will include the Department of Motor Vehicles (DMV) plus:

- The Department of Health and Human Services and the agencies it designates that are involved with Medicaid and/or the Silver State Health Insurance Exchange; and
- Any other state agency, including the Executive Department or tribal agency that meets certain requirements and is approved by the Governor.

Procedures for Automatic Voter Registration (AVR):

- An AVR agency may not electronically transmit a person's voter registration related data to the county Election Department or Nevada Secretary of State if that person did not provide the AVR agency in the normal course of business enough information to show he or she was qualified to vote, including proof of identity, citizenship, residency, and date of birth. However, such a person may still register to vote by other means than AVR at the agency (manually complete a paper form, for example).
- The Election Department must contact a voter registration applicant to obtain additional information if the AVR agency submitted incomplete information.
- The Election Department must send an informative notice to AVR applicants who successfully register. The notice must include how to opt out of voter registration or choose another party affiliation.
- The Election Department may not reject a voter registration application solely because the AVR agency did not provide the applicant's electronic facsimile signature. The Election Department must obtain this signature by a wide variety of other means as specified in the law.

Registration and Death Records (AB321)

Secretary of State and Vital Statistics Cooperation: The Nevada Secretary of State is authorized to enter into a cooperative agreement with the State Registrar of Vital Statistics to match statewide voter registration information with Vital Statistics records concerning deaths at least once a month to maintain the statewide voter registration list.

Top-Down Registration System (AB422)

Centralized State Level Voter Registration System: The Nevada Secretary of State must establish and maintain a centralized, top-down voter registration database for collecting and storing registration information from all counties. All counties must use the database to collect and maintain all voter registration information. The database will be used to create an official statewide voter list. The Secretary of State must prepare a semiannual report, from January 1, 2022, to January 1, 2024, detailing the progress of the implementation of the top-down database.

Precinct Size (SB84)

Increased Maximum Number of Voters per Precinct: The allowable maximum number of voters per precinct is increased to 5,000 from 3,000.

Provisions for Voters with Disabilities (AB121)

Expanded Registration and Voting Options: The Nevada Secretary of State's system of approved electronic transmission established for certain uniformed military and overseas voters may be used by a person with a disability to register to vote and also by a registered voter with a disability to cast a mail ballot.
