Appendix 3: Guidance on Design and Posting of Dust Control Operating Permit Signage

1. The signboard shall be constructed with materials capable of withstanding the harsh environment (e.g., strong winds, intense sunlight) of Clark County, have a minimum dimension of 4 feet by 4 feet, and be constructed with the following materials:
   (a) ¾ inch AC laminated plywood board;
   (b) Two 4 inch x 4 inch posts;
   (c) Posts should be attached to the edges of the plywood board with a minimum of two carriage bolts on each post; and
   (d) The front surface of the signboard should be painted in the contrasting colors of a white background with black lettering.

2. The signboard shall be installed and maintained in a condition such that members of the public can easily view, access, and read the sign at all times.
   For all signs, DAQ recommends the following measures:
   (a) The lower edge of the sign board should be mounted at a minimum of 2 feet above the existing ground surface to facilitate ease of viewing;
   (b) Posts should be set in a hole a minimum of 3 feet deep with concrete footings to prevent downing by high winds;
   (c) On the construction site, the sign should be positioned so that it is not obstructed from public view from the primary street access point; and
   (d) For construction projects that are developed in phases, the sign should be relocated to the area that is under active construction.

3. The signboard shall contain the following information:
   (a) Project Name.
   (b) Permittee Name.
   (c) Phone Number of Person Responsible for Dust Control Matters.
   (d) DAQ Dust Hotline Phone Number.
   (e) Dust Control Operating Permit Number.
   (f) Project Acreage.
(g) Dust Control Operating Permit Expiration Date.

4. The signboard shall be designed to the following alpha and numeric text dimensions (sign boards written in longhand are unacceptable).

<table>
<thead>
<tr>
<th>1&quot; UPPERCASE Letters</th>
<th>PROJECT NAME:</th>
<th>(Proj. Name)</th>
<th>3 1/8&quot; Title Case 1 Bold Letters</th>
</tr>
</thead>
<tbody>
