

William Kremer is one of four Lay Members of the Air Pollution Control Hearing Board. He was originally appointed by the Clark County Commissioners on October 7, 2014. Originally from the Chicago area, Mr. Kremer received his Biochemistry degree from Purdue University, and then went to work in management in the food and ingredient-processing industries. He worked for the next 20-plus years for a few large companies in mid to upper-level management. After learning about the proposed plans for California's implementation of Assembly Bill 32, the Global Warming Solutions Act of 2006, Mr. Kremer decided he wanted to be a part of that solution, so he attended classes in Sacramento, received his accreditations, and began doing greenhouse gas emissions audits with an Accredited Verification Body for a variety of entities in both California and abroad. He is honored to be chosen to serve on the Clark County Air Pollution Control Hearing Board, and looks forward to serving his 3-year term. His term expires November 2, 2023.
