Please Help Us Help Families

When you find that a patient/client has passed away and family has not been identified, please be sure to use our online referral form to make a referral to our office.

Often times, these individuals die with assets that need to be protected. With your assistance, we can be sure that we protect the assets and get them to loved one.

Please google Clark County Public Administrator or use the QR code from any device to find the online referral form on our website.
