

Roadmap to Recovery for Nevada

Appliance and Furniture Showrooms

Mandatory*

Recommended Best Practices*

Employees & Customers

- Ensure minimum 6 feet between people; if not possible, install barriers. Place markers to indicate 6 feet.
- Employers must perform daily symptom assessment of employees.**
- Require employees to stay home if symptomatic.
- Require frequent and thorough hand washing, including providing workers, customers, and worksite visitors with a place to wash their hands. If soap and running water are not immediately available, provide alcohol-based hand sanitizer.
- Face coverings are required for employees.
- Handshakes, high fives, hugs, first and elbow bumps and other greetings are not allowed.

- Provide hand sanitizer stations to customers.
- Stagger or limit arrivals of employees and customers.
- Assign one sales representative only to a customer.
- Post informational signs regarding social distancing, facial coverings, and what to do if symptomatic.
- Train staff on new operation plan.
- Consider allowing employees to enter through a separate door than customers.
- Encourage customers to wear facial coverings.

Shift Pattern

- Alternate shift changes.
- Stagger lunch and break times.

- Split into sub-teams, limit contact across sub-teams.
- Enact standards for different aspects of the business and teams (e.g. delivery, fleet, warehouse).

Shared Spaces/ Showroom/ Workstations

- Number of customers in showroom areas may not exceed 50% of the area's listed fire code capacity.
- Daily deep disinfection of high contact surfaces (e.g. door handles, light switches, seats, railings, cabinetry handles, appliance handles, toilets, countertops, phones, tables, etc.).
- Space showroom floor to allow for distancing.
- Staff meetings should be limited to 10 employees with social distancing protocols.
- Limit the number of people in an elevator, if applicable.
- Do not use communal water fountains.
- Use fabric sanitizer for all soft goods.
- Use mattress protectors for the mattresses.
- Provide bedding for each customer to use to test mattresses.

- Close gathering spaces, if possible, or conduct regular cleanings.
- Consider virtual meetings over in-person meetings.
- Limit shared spaces to one team or customer group at a time.
- Limit item sharing.

Confirmed Cases

- Immediately isolate and seek medical care for any individual who develops symptoms while at work and follow CDC guidelines.
- Contact the local health district about suspected cases or exposures. Employers should maintain the confidentiality of employee health information.
- Shutdown any facility for deep cleaning and disinfection, if possible.
- Use disinfectants outlined on [EPA List N](#).

- Work with local health department to identify potentially infected or exposed individuals to help facilitate effective contact tracing/notifications.
- Once testing is readily available, test all suspected infections or exposures.
- Following testing, contact local health department to initiate appropriate care and tracing.

**Daily symptom assessment should include monitoring for fever, cough and trouble breathing.

*These recommendations were compiled based on guidance from the CDC, the U.S. Food and Drug Administration (FDA), [Nevada OSHA](#), and other relevant agencies for the industry and public health officials, including state licensing boards. The information provided is only intended as general information to the public. Following these guidelines does not constitute, and is not a substitute for, compliance with all laws and regulations applicable at any particular time. Individuals and businesses are responsible to ensure that they comply with all laws and regulations that apply to them, including, but not limited to, federal and state health and safety requirements. Additionally, compliance with these regulations does not ensure against the spread of infections from COVID-19 or any other cause.
