

Roadmap to Recovery for Nevada

Body Art and Body Piercing Establishments

MANDATORY AS OF 6/26/2020:

- Face coverings are required except for persons meeting the exemptions established by [Directive 024](#).
- If you have a medical condition preventing you from wearing a face covering, you are strongly encouraged to wear a face shield.

Mandatory*	Recommended Best Practices*
------------	-----------------------------

Employees & Customers

- Ensure minimum 6 feet between people, if not possible, install barriers.
- Employees must perform daily self-symptom assessment.**
- Require employees to stay home if symptomatic.
- Require regular handwashing upon arrival, before meals and breaks, after using the restroom, blowing nose and before returning home.
- No body art may be done around the nose or mouth due to facial coverings.
- Provide hand sanitizer stations.
- Post informational signs regarding social distancing, facial coverings and what to do if symptomatic.
- Face covering are required for employees and customers.
- Customers must be interviewed about symptoms.
- Schedule appointments to avoid congregating—no walk-ins permitted.
- Post informational signs regarding social distancing, facial coverings and what to do if symptomatic.

- Provide hand sanitizer stations.

Shift Pattern

- Keep customers to a minimum in the waiting room.
- Encourage customers with appointments to wait in their car or parking lot.
- Disinfect all high touch surfaces in between guests.
- Persons with appointments should be the only ones on the premises.

Physical Spaces/ Workstations

- Ensure minimum 6 feet between people.
- Daily deep disinfection of high contact surfaces (e.g. door handles, light switches, seats, railings, cabinetry handles, appliance handles, toilets, countertops, phones, tables, etc.).
- Wear gloves and face masks.
- Require regular handwashing.
- Disinfect or wash furniture in between each customer.

Confirmed Cases

- Immediately isolate and seek medical care for any individual who develops symptoms while at work and follow CDC guidelines.
- Contact the local health district about suspected cases or exposures and employers should maintain the confidentiality of employee health information.
- Shutdown any facility for deep cleaning and disinfection, if possible.
- Use disinfectants outlined on [EPA List N](#).
- Work with local health department to identify potentially infected or exposed individuals to help facilitate effective contact tracing/notifications.
- Once testing is readily available, test all suspected infections or exposures.
- Following testing, contact local health department to initiate appropriate care and tracing.

**Daily symptom assessment should include monitoring for fever, cough, and trouble breathing.

*These recommendations were compiled by the LEAP based on guidance from the CDC, the U.S. Food and Drug Administration (FDA), [Nevada OSHA](#), and other relevant agencies for the industry and public health officials, including state licensing boards. The information provided is only intended as general information to the public. Following these guidelines does not constitute, and is not a substitute for, compliance with all laws and regulations applicable at any particular time. Individuals and businesses are responsible to ensure that they comply with all laws and regulations that apply to them, including, but not limited to, federal and state health and safety requirements. Additionally, compliance with these regulations does not ensure against the spread of infections from COVID-19 or any other cause.
